NO. 735—30TH YEAR. COLORADO SPRINGS, COLO., WEDNESDAY, JANUARY 22, 1902.—EIGHT PAGES. PRICE FIVE CENTS.

PHILIPPINES TARIFF BILL

An Extended Discussion of the Measure in the Senate.

DEBATE OPENED BY MR. LODGE

Mr. Rawlins Continued the Discussion on Behalf of the Minority--Features of Debate.

By Associated Press.

Washington, Jan. 21.—For nearly three hours today the senate had under consideration the Philippine tariff bill. The measure was made the unfinished business and probably will hold that position of preference until it shall have been voted on finally.

The debate was opened by Mr. Lodge of Massachusetts, chairman of the committee on Philippines. He sketched in a free-hand way the reasons which had actuated the majority in presenting the measure and urged strongly its enactment into law at an early date. He explained with some minuteness the necessity for the legislation embodied in the bill and concluded with an appeal to the senate and to congress to deal with questions relating to the Philippines as they might arise and to keep clear of vague words and vaguer promises, which were likely to be misinterpreted and in peroration he besought congress not to give mortgages on an unknown future.

Mr. Lodge reviewed briefly the past method of the government of the Philippines by the United States and then took up the recent supreme court decisions holding the Philippines to be domestic territory and all duties levied upon articles void.

There was, also, he said, doubt whether the tariff adopted for the islands themselves would stand without further action of congress. There was, however, under the supreme court decisions no doubt of the right of congress to act.

Mr. Lodge called attention to the necessity of coastwise legislation for the islands under decisions of the supreme court. He said that the tariff as fixed by the Philippine commission had been established only after the most careful investigations, covering several months and it was obvious to the committees of the two houses that they could not hope to improve upon that act.

Mr. Lodge said that to discriminate in favor of the United States on products going to the Philippines would diminish the revenue and would break down the policy of the "open door." The United States had by its firmness and its excellent diplomacy accomplished the establishment of that policy in China and China would be for years the most important market for products of the United States.

He explained the senate committee's reduction of the Dingley rates to the extent of 25 per cent., saying that the committee had not felt it wise to make a further reduction. The exaction of the remaining duty could not be considered onerous in view of the fact that all the moneys thus collected would be returned to the Philippines.

Mr. Lodge said that the removal of the export duties did not affect the open door policy. If it did he would oppose it. Nor could the policy give offense to Spain under the treaty between that country and this. He defended the policy of the free importation of hemp as in the interest of the agricultural element.

Mr. Spooner asked if the policy of refunding the export tax on hemp would not have the effect of causing all the hemp grown in the Philippines to be brought to the United States and thus deprive the Philippines of the entire revenue derived from that source.

Mr. Lodge replied that the provision applies only to hemp "for use in the United States." The regulation of that matter would have to be left to the treasury department but he would be willing to so amend the bill as to relieve it of this possibility. He said in reply to Senator Foraker that this same objection to the removal of the export duty on hemp would apply to all other articles originating in the Philippines.

Speaking on general lines Mr. Lodge said that the Philippine islands are prosperous and he quoted a circular letter to German exporters in support of this provision.

It was also set forth that Spain's commercial prestige is being displaced by that of the United States.

In reply to Mr. Bacon, Mr. Lodge said that the war department had had to meet an exigency in issuing its order temporarily authorizing all vessels to engage in the coastwise trade of the Philippines. To have failed to do this would have wrecked the commerce of the islands and although the order might not have been authorized by law it was justified by the circumstances and by the certainty of speedy action by congress.

Mr. Lodge said he had no desire to go beyond the present situation. The minority proposes to sweep away all tariff and to encourage the Filipinos to leave up. They also make large promises for the future. As for his mind it was certainly clear as to what we should do with the Philippines in the future but he would never willingly agree to put into a bill a legislative promise vague, uncertain and perhaps impossible of fulfillment, raising vain hopes and doing no good.

Mr. Lodge spoke for about an hour and was followed by Mr. Rawlins.

Mr. Rawlins of Utah delivered a vigorous speech in support of the minority substitute in which independence was promised to the Filipinos so soon as a stable government could be established in the Philippines. His discussion of the general Philippine question covered much of the ground that had been gone over during the past two years. Throughout he was accorded careful attention.

After reviewing the bill proposed by a majority of the committee, Mr. Rawlins said it must be plain that the majority measure would not tend to promote peace and order in the Philippine archipelago.

He did not think it difficult to foresee the results of the policy proposed by the majority. War, insurrection, brigandage, robbery and assassination would continue. Industry and trade would be paralyzed. Waste of blood and treasure would continue. The horror of the situation now indescribable would grow more aggravated. The Philippine commission, he asserted, desired to have large sums of money for expenditures. There was no limit to the commission's power to multiply offices, employments and salaries. It owed no responsibility, he declared, to the Filipino people. One of the necessary results, he insisted, of the administration's "imperial program" was that the officers in the islands would replenish their fortunes and then return to this country to live in affluence.

"Look," said he, "at the conduct of our agents in Cuba, stealing the trust funds committed to their care. Examine the proceedings of even our judges, marshals and other officials in far distant Alaska. Conspiracies to commit a larceny of wealth seem to become predominant. The policy outlined by the majority proposes a permanent institution of the practice of tyranny."

He declared that the object of the measure proposed by the majority was to obstruct and destroy trade with the islands by placing embargoes upon it. These methods, he insisted, would incite the islanders to further hostility and insurrection. The great army now maintained in the islands was insufficient to protect life and property. He ridiculed the plan of campaign adopted by the army in the Philippines and denounced the "finesse" by which Aguinaldo was made a prisoner. It was idle, he said, to suppose that the people of the islands would ever forgive us or look upon us as friends.

After reviewing briefly the origin of the insurrection, Mr. Rawlins said it was not too late yet to fulfil our pledge to accord to them their independence. It is not yet too late for us to stay the hand of the carpet bagger and remove the islands from future exploitation.

The exploitation, he declared, would result in the control of everything in the islands by trusts. When the Philippines became thus "trust infested," the result could be forecasted readily.

"The Democratic proposition," he said, "is that tariff should be imposed for revenue, the duties to be so adjusted as to operate equally throughout the country and not to discriminate between class and section.

"The proposition which the minority submits, if adopted, will prove a simple and effective remedy for the troubles which afflict us. It proposed to relinquish the islands. It proposes that so long as we continue in possession of the islands there shall be freedom of trade between them and the United States. When the United States withdraws from the islands, and they assume in all respects the attitude of a foreign country they will be subject to the provisions of our general laws relating to tariff taxation.

"Let the Israelite go. Otherwise the burden of our difficulties will grow. Taxes, like the Old Man of the Sea, will hang upon our backs. And in the end the gorry head of the republic may be raised upon a pike as a terrible warning to any who would struggle to be free."

HOUSE DISCUSSION OF ARID LAND IRRIGATION

By Associated Press.

Washington, Jan. 21.—In the absence of other pressing business the house managers are allowing the widest latitude in the debate on the urgent deficiency bill now before the house. The irrigation of arid lands in the west and the advisability of retaining control of the Philippines were the main topics under discussion today. The speakers were Mr. Sibley of Pennsylvania, Mr. Dinsmore of Arkansas, Mr. Newlands of Nevada, Mr. Mondell of Wyoming, Mr. Robinson of Indiana, Mr. Kerns of Illinois, Mr. Gaines of Tennessee, Mr. Vandiver of Missouri and Mr. Greene of Pennsylvania.

Mr. Sibley (Pa.) opposed the government entering at this time upon a scheme for the irrigation of the arid lands in the west. He believed the whole question was for another generation. Members representing an agricultural constituency should oppose a measure which involved the expenditure of untold millions to be taken by taxation from all. He spoke of the decline in value of farm lands in eastern, middle and southern states. Yet this was a proposition to open up hundreds of millions of acres more to be in open competition with these farms.

"Let us wait," said Mr. Sibley, "until our increased population shall so expand that these lands shall be needed to meet the demand for a greater food supply. To my mind, if we undertake the present accomplishment of irrigation we shall be pressing a poisoned chalice to the lips of the farming classes in this nation, which, if it does not kill them, will at least leave them for another generation in torpor or misery."

Mr. Newlands (Nev.), an earnest advocate of the irrigation of arid lands, replied to Mr. Sibley. He explained the provisions of the bill which it was proposed to send to the house, to show that it would not create a charge on the public treasury but would employ only the funds raised from the sale of arid lands for the work of reclamation. He argued that the irrigation of western lands would not constitute a threat against the farmers of the older states. While there were 600,000,000 acres of arid land in the west he said there was not water enough to redeem more than 70,000,000 acres, an area twice as large as Iowa and generations would be required to bring all these lands under irrigation.

Mr. Mondell (Wyo.) also defended the recently formulated irrigation bill.

Mr. Gaines (Tenn.) opposed the item in the bill providing for the establishment of a military post at Manila and denounced the administration's policy in the Philippines. Mr. Gaines declared that while in the Philippines he learned absolutely that the Americans promised independence to the Filipinos.

Mr. Kahn (Calif.) challenged him to produce the name of a single Filipino who gave him such information. Mr. Gaines said that the information had been given him in confidence and that if he were to divulge the names of those who had given it to him they would lose their heads. This reply elicited jeers from the Republican side.

Mr. Dinsmore (Ark.) also spoke in opposition to the administration's Philippine policy. He insisted that we should not turn our backs upon the glorious traditions of the past and enter upon a colonial policy.

Without concluding the general debate the committee rose. The report of the committee on military affairs, recommending that the resolution calling for the papers in the case of Hamilton Blount, captain of the Forty-eighth volunteer infantry, lie upon the table was adopted.

At 5:10 p. m. the house adjourned until tomorrow.

ALL THE NEWS

Silver, 55¼; lead, $4; copper, $11.

New York stocks narrow and sluggish, with net changes small and mixed; money on call steady, at 3@3½.

Chicago grain rallied from Monday's depression and May wheat closed ⅝c higher, corn ⅜@⅝c up and oats ⅛@¼c higher; provisions inclined toward weakness and closed slightly lower.

LOCAL

By the explosion of a keg of powder at the Pike View coal mine yesterday morning four men were painfully burned, one of them dangerously so.

Colorado City merchants decline to recognize Retail Clerks union and say they will not be dictated to regarding methods they shall employ in running their business.

STATE

Direct information filed in the district court at Cripple Creek charges James E. Kearns and Michael J. Kearns with the murder of Martin Gleason, late superintendent of the Wild Horse mine.

WASHINGTON

The house committee on rules has decided on a change of the rules so as to exclude the general public from the floor when the house is not in session except on card of admission from a member of congress.

Senator Morgan has introduced a bill placing General James Longstreet on the retired list of the army with the rank of major, the rank he held when he entered the service of the confederacy at the beginning of the civil war.

The president has nominated Dr. Presley M. Rixey to be surgeon general of the navy.

GENERAL

Four more federal convicts have been captured in McNeils island, leaving but four now at large.

Governor General Taft, who landed in San Francisco yesterday en route from Manila to Washington, says that he has never before been so encouraged as to the prospects of the Philippines as he has within the past three months.

William H. Hoffmeister of St. Louis, ex-supreme recorder of the Legion of Honor, committed suicide at the Planters hotel in St. Louis by shooting himself with a revolver.

Special Agent Charles T. Green of the United States land office at Rapid City, S. D., was stricken with apoplexy and died Monday night. His home was at Des Moines, where his remains will be shipped.

The inauguration of Hon. Franklin Murphy as governor of New Jersey took place at noon yesterday.

Rates from Chicago to San Francisco and return for the biennial meeting of the Knights of Pythias next August will be $50, with stopovers permitted.

Marconi has complied with the request of his financee to be released from her engagement to marry him.

FOREIGN

Lord Kitchener reports that since January 13, 31 Boers were killed, 13 wounded, 170 were made prisoners and 41 surrendered.

Don Carlos, the Spanish pretender, by special permission from the French government, has arrived at Nice on a visit to his son, Don Jaimon, who is recovering from an attack of diphtheria.

MINES

The mining stock market yesterday was lighter and manifested much weakness. Elkton advanced to $1.30 but fell back to $1.27½, and El Paso declined to 52. Findley was lower at 11½ and Portland sold again at $2.40. Gold Dollar Cons. was stronger at 22.

The Isabella meeting was adjourned yesterday to meet Saturday, due to an arrangement which had been entered into between the present management and the opposition some time ago. The annual reports are presented in full, giving a detailed account of the present condition of the Isabella properties.

The Elkton company has succeeded in removing the bulkhead in the eighth level and development work is at once to be resumed at that depth. In the seventh level the big body of ore is now 30 feet wide and only one wall as yet cut.

KANSAS DEMOCRATS.

By Associated Press.

Topeka, Kan., Jan. 21.—The Democratic state central committee today decided to hold their state convention on May 20 at Wichita, Kan. The representation is made large enough to include the Populists in case they decide at the meeting next month to abandon their organization and affiliate with the Democrats.

FOUR DEATHS ON TRANSPORT.

By Associated Press.

San Francisco, Jan. 21.—There were four deaths during the voyage of the transport Grant, which arrived from Manila last night. Cornelius F. Haney of the Twentieth field artillery died from tuberculosis January [illegible] and the next day George H. Williams, a discharged private of troop H, Sixth cavalry, succumbed to the same disease. William Ryan, a teamster, also died from tuberculosis on the 2[illegible] instant, and on the 3rd, Frederick E. Prior, a discharged private of company [illegible], Ninth infantry, passed away.

CAPTURE OF FOUR MORE OF THE FEDERAL CONVICTS

By Associated Press.

Tacoma, Wash., Jan. 21.—Four more federal convicts, Campbell, Morton, Ainsworth and Davis, were captured on McNeils island today leaving but four now at large. Davis, the convict supposed to have been wounded last night, was caught this afternoon by Rancher Hanson and while on the way to prison knocked Hanson down and tried to seize his gun, but was seized by two other guards who happened to come up at the time and the three overpowered him after a hard struggle. Davis was not wounded in any way.

Hanson was chopping wood when he heard a commotion at his house and on going down saw Davis eating an apple. Hanson approached from behind and thrusting the muzzle of his gun in Davis's face told him to throw up his hands and march to the penitentiary.

"That's good enough for me," said Davis, and they started for the penitentiary. Instead of making Davis go ahead Hanson marched him along on the left side of him. After they had gone half a mile Hanson shifted his gun to his left hand. Davis, watching his opportunity seized the stock and struck Hanson over the head, nearly knocking him down. A struggle ensued but most opportunely two special guards came in sight and assisted Hanson in overpowering Davis, who was marched to the prison without further trouble.

About 8 o'clock this morning Campbell, Ainsworth and Morton were captured by Deputy Sheriff Johnson and Sailor Rynberg of the United States revenue cutter Manning, who captured Snyder and Carroll last night. The three prisoners say the escaped convicts were all together Monday morning and again last evening just before Snyder and Carroll were captured. Neither of the trio were in bad condition when captured. All were famished, however, and begged for food but their request was denied, although they had been fasting since Sunday morning. When the three men were brought in Morton remarked as he shuffled into the warden's office: "Well this is the first time for me and I want no more of it."

When old Jimmy Carroll was brought in last night he begged for whisky and was in a terrible condition. His request would have been granted had there been any liquor on hand. He was given a little alcohol weakened with water and sweetened. His condition was so serious that on the advice of Dr. Parks he was not thrown into the dungeon with the other recaptured men, but sent to his cell, where he fell asleep immediately.

Marshal Ide is satisfied that the four convicts now at large have not left the island and from the famished and exhausted condition of Snyder and Carroll it is evident the men have had nothing to eat. This is telling on them severely and they must be growing weak, but it will take a long time for desperate men like Moriarity to give up even to the pangs of hunger.

SEVEN MEN KILLED IN BURNING LUMBER CAMP

By Associated Press.

Hambleton, W. Va., Jan. 21.—About 4 o'clock this morning camp 5 of the Otter Creek Boom and Lumber company, several miles from here in the forest, took fire and burned so rapidly that seven of the 10 men asleep in the building failed to get out and were burned to death. Following is the list of the dead:

John Morthey, John Riley, George Van Horn, Arthur Hedricks, Thomas Tuckey, Mike Crannon, Forest Minard. Bud Welch was so badly burned that he is in a critical condition. It was not more than five minutes from the time the alarm was given until there was no chance to escape. The building was 22 by 30 feet and the upper part was all in one room. In this the 10 men were sleeping. Two very small windows and the narrow stairs afforded the only ways of escape and those who went to the windows, a dozen or more, had to jump 12 or 15 feet, the others rushing down the steps like sheep, pushing and tumbling and falling over each other. The dead were almost entirely cremated.

RELEASED FROM HER ENGAGEMENT TO MARCONI.

By Associated Press.

New York, Jan. 21.—Mrs. H. B. Holman of this city announced today that her daughter, Josephine, had asked William Marconi, the developer of wireless telegraphy, to release her from her engagement to marry him and that Mr. Marconi had complied with her request.

FRENCH DEPUTIES DISCUSS A DUEL.

By Associated Press.

Paris, Jan. 21.—During the debate on the foreign estimates in the chamber of deputies today M. D'Estournelles De Constant, (Republican) condemned the increase in armaments and the expansion policy which he said, multiplied the chances of conflicts and would lead to a frightful crash. He regretted that France had entered into an imperialistic policy in acquiescing to the Europeanization of China.

M. Lasies (anti-Semite) having interpolated a sarcastic remark, Mr. D'Estournelles de Constant retorted that he would not be intimidated by Nationalists. The remark offended M. Lasies, who sent seconds to M. D'Estournelles de Constant.

The seconds of M. de Constant and M. Lasies failed to agree as to whether the words of the former deputy constituted an insult. The seconds referred the question to arbitrators who were also unable to decide this point. The seconds then threw up their mission.

It is said that M. Deschanel the president of the chamber has decided to intervene and end the incident and that he has ordered the words of M. D'Estournelles de Constant to be suppressed from the report of the sitting.

CHARGES AGAINST A G. A. R. COMMANDER

By Associated Press.

Topeka, Kan., Jan. 21.—The executive committee of the Kansas G. A. R. this evening ordered Martin Norton, the department commander, to vacate his office at once. The committee has been in session all day investigating charges of incompetency, drunkenness and looseness in money matters that had been placed against Norton and sustained them in every particular.

MONEY FORWARDED FOR MISS STONE'S RANSOM

By Associated Press.

Constantinople, Jan. 21.—Notwithstanding the efforts made to keep the matter secret, it was ascertained today that the money subscribed for the ransom of Miss Ellen M. Stone and Mme. Tsilka, her companion, has been forwarded to the Americans who have been negotiating with the brigands for the release of the two women. The whereabouts of the negotiators is withheld by the officials here.

ELECTED PRESIDENT OF NORTH-WESTERN

By Associated Press.

Chicago, Jan. 21.—Prof. Edmund J. James of the University of Chicago was elected president of the Northwestern university at a meeting of trustees of the university held here today. He will succeed Dr. Henry Wade Rogers, who resigned 18 months ago.

It is not probable that any immediate action will be taken by the officials of the university against Prof. Charles W. Pearson, who recently declared that he did not believe in the infallibility of the Bible. At a meeting of the executives of the university today the matter was referred to a special committee of three which will report when it has finished its investigation.

[illegible] SUBMARINE BOATS.

By Associated Press.

San Francisco, Jan. 21.—The submarine torpedo boats Pike and Grampus, which have been building at the Union Iron Works for the United States navy for some time past, are now nearly completed and it is expected that they will be launched about the first of the coming month. Their trial trips, both submerged and on the surface, are scheduled to take place a few days later, as the boats will be practically completed and ready for service from the time they are launched. The transport Thomas, which has been undergoing repairs at the Union Iron Works for the past two weeks has had the work on her completed and returned to the transport dock. Work is progressing on the transport Sherman and it is expected she will soon be ready for service.

MRS. RICHARDSON ON TRIAL FOR MURDER

By Associated Press.

Plattsburg, Mo., Jan. 21.—Mrs. Addie L. Richardson faced a jury of farmers in the circuit court here today and her trial for the murder a year ago last December of her husband, Frank L. Richardson, a wealthy merchant, at their home in Savannah, Mo., began in earnest. Mrs. Richardson was surrounded by her three youthful sons and several other members of her family and that of the man whom she is charged with murdering, including his brother, John D. Richardson, the cracker millionaire of Chicago.

The prosecution under the indictment of murder in the first degree is based on the proposition that the prisoner either killed her husband or knows who did. The belief that all members of the Richardson family have all along expressed faith in the innocence of the widow appears to be unshaken by the recent arrest at North Yakima, Wash., of Stewart Fife, the former business associate of Richardson, or any information that has developed in the last year.

The prosecuting attorney, in opening the case, said:

"As a motive we will try to show that Mrs. Richardson was unduly intimate with Stewart Fife and we expect to show that Fife was in the neighborhood of the house that night."

ROBBED A BANK.

By Associated Press.

Sedgwick, Kas., Jan. 21.—At about 2 o'clock this morning burglars robbed the Citizens' Savings bank here of a box of silver containing $100. The burglars dug through the brick walls of the vault and then blew off the door of the safe with dynamite. In their haste they missed the bulk of the money but escaped with what little they secured.

CHEYENNES ARE QUIET.

By Associated Press.

Butte, Mont., Jan. 21.—A special to the Miner from Miles City says troop F, Seventh United States cavalry, today returned to Fort Keogh from the Lame Deer agency on the Cheyenne Indian reservation, whither the troops had been sent to quell a threatened outbreak of the Indians and suppress the war dances caused by a tragedy following an attempt to arrest an Indian for alleged cattle rustling. Everything is reported quiet at the agency, the presence of the soldiers having a wholesome effect upon the redskins. A detachment of about 50 cavalrymen has been left on guard at the agency as a precaution against further trouble.

"A TRIP TO THE CIRCUS" AT TEMPLE THEATER TONIGHT.

Those who enjoy a clean, wholesome play in which pathos and humor are constantly blended, will find it in this simple story of New England country life. Those who enjoy clever, up-to-date specialties and the almost human intelligence of trained animals will also be entertained by "A Trip to the Circus," for it is a piece in which comedy-drama, circus and vaudeville are all combined in one big show. You go to hear the average modern so-called play and you sit and laugh for a couple of hours and then go home and wonder what you laughed at and what it was all about anyhow. Go to see "A Trip to the Circus" and you will not only laugh and be entertained, but you will hear a pretty story well told and go away with something to retain and think about. You will mourn with the father sorrowing for the loss of the child that was stolen from him; you will sympathize with the tramp stung with remorse at the crime he has committed, smile at the deaf lover courting the old maid and laugh at the escapades of the two Irish servants. You will enjoy the jokes and antics of the old-fashioned clown, be instructed and trained by the clever tricks of the trained animals. All this and more you will hear and see in "A Trip to the Circus." Tonight at Temple theater. Seats now on sale at Briscoe's book store. Prices 25, 35 and 50.

[illegible] Matinee Performance, [illegible] Theater, Jan. 25.

For this occasion the Colorado & Southern railway will make a rate of one standard fare for the round trip. Tickets on sale Jan. 25. Six fast trains daily. City ticket office 15 N. Tejon St.

[illegible] Cripple Creek via Colorado Midland Railway.

CONTINUED ACTIVITY IN BOULDER OIL FIELDS

Special to the Gazette.

Boulder, Jan. 21.—There is no oil boom on in Boulder, but just a steady progress toward developing what looks to be one of the greatest oil discoveries in the western states. Out in the oil field all is bustle and hustle. Here is the sound of the hammer and saw putting together new derricks, there is the steady noise of the drill and further on getting the pumps to work.

Parties from Colorado Springs and Denver are here by the dozen and the stock of the companies that are being formed is being purchased by the local people. Boulder people certainly have faith in the future of the oil district in Boulder county and they are showing it by purchasing the stocks freely of those companies that have started in the oil belt.

The exact capacity of the Arnold well is still undecided as the pumps have not yet got to work, but it is expected that they will be working in the well tomorrow. There is some uncertainty as to the nature of the oil strike, but the general opinion seems to be that it comes from the no-bela shale or the gray shale that lies between the coal levels and the greenhorn limestone.

It is not exactly a sandstone that carries the oil, but a rock that is porous and which has the appearance of a cinder. One thing is sure, the oil is there. It is of a fine quality and there will be no difficulty in marketing the product.

Among the new enterprises started today are two by Bonbright & Co. of Colorado Springs. One is on the Anderson tract of 160 acres and one on the Davis tract of 160 acres. This land lies north and northeast of the Head Light well. In both of these cases the timber for the derrick is now on the ground and work has been started.

The Boulder-El Paso Oil and Development company is another enterprise. They have 20 acres adjacent to the McKenzie well. The people in this company are J. W. Thomas, Del Whatley and J. W. Sheafor, Bloom T. Joy of Colorado Springs, and Harry Gamble, James Cowie, Frank Debacker, Henry Smith and E. J. Moore of Boulder. The derrick has been ordered for this property.

The Hake Oil and Gas company, formed by J. W. Thomas of Colorado Springs, has 40 acres in the heart of the belt. The National Oil and Gas company has 217 acres and has been organized by Hall, Babbitt and Thayer.

Among the Springs people here today were Judge Ira Harris, J. S. Tucker, George Rex Buckman, J. S. Sanger, J. R. Talpey, S. T. Hamilton, J. M. Allen, R. C. Thayer and A. E. Carleton, the latter of Cripple Creek.

There was a great demand for the Sunday Gazette containing the write-up of the Boulder oil fields.

FALCON

One of the most enjoyable social events of the winter was the party given by Mrs. Nellie Smith at her ranch house on Tuesday evening, January 7. There was splendid music and dancing was indulged in by those who wished. Most delicious refreshments were served. Among those present were Mr. and Mrs. Ed Garrett, Miss Bell, Mr. and Mrs. John Brown, Mrs. Jackson, Mr. and Mrs. Frank Edwards, Mr. and Mrs. McEwen, Mr. and Mrs. McGinnis and daughter Mabel, Mr. and Mrs. A. E. Smith, Mrs. Stewart, Mrs. Cuthbert and daughter Bessie, Miss Hesse, Dr. Craig, Medford Banfield, A. P. Ally, George Robinson, Frank Wood and son, Edmond Butler, Tom Alexander and Jim Cook.

Logan Temple, Rathbone Sisters, installed the following officers on January 8. M. E. C., Marguerite Dyer; P. C., Lillie Dyer; E. S., Susie McDermott; E. J., Josephine McEwen, manager, Annie Evans; M. of R. and C., Emma S. Logan; M. of F., Susan E. Cuthbert; P. of T., Aurelia Thompson; G. of O. T., Jennie Fay. After the installation a nice lunch was served to their families and the Knights.

Mrs. Park and Mrs. Patterson were Cripple Creek visitors on Wednesday.

Mr. S. J. Dyer returned from his visit at Denver, Boulder and Lafayette on the 9th. Mrs. Dyer visited Mr. Zillman's family at Boulder, finding them well and Mr. Zillman getting along nicely with his medical studies at the university. Mrs. Dyer remained in Denver for a longer visit with her daughter and on Wednesday Misses May and Alma went up to spend a few days and return with their mother.

A. E. Dotson came out from Roswell on Wednesday night and he and Nels Sarrenson were initiated in the mysteries of the "Choppers."

H. E. McEwen has been confined to the bed for several days with rheumatism. He is under the care of Dr. Hill.

D. T. Cuthbert went to Roswell for a few days on Tuesday, as agent McCarty was ill. He was relieved here by A. C. Rabourne but the night office closed Friday night, Mr. Rabourne going to Denver.

Clarence Wood went down to the Cuthbert ranch on Thursday to look after things until Mr. Wharton's return.

The ladies of Logan Temple, R. S., expect to give an invitation dance and oyster supper on February 14. Good music, a good supper and a good time generally is promised all who attend.

Mr. Benjamin Robinson was a Springs visitor on Monday. He was summoned as a juror but was released on account of his wife's illness.

The community was shocked to hear of the death of W. Curl. He was well-known in this place and his friends were pained to hear that his life had been sacrificed by an accident.

Wallace Miller spent Sunday at his father's, returning to the Springs this morning.

Seagle Kelley went to Denver this morning to see his brother Shannon, who is at the C. F. & I. hospital suffering from a broken leg which he received while at work at Walsenburg. His many friends hope for his speedy recovery.

DEATH OF A CHILD—News comes from Independence of the the death of Margaret, the 6-year-old daughter of William A. Benedict of that city. The funeral will be held from the Santa Fe depot tomorrow morning at 11 o'clock, the interment to be in Evergreen cemetery. Mr. Benedict is well known here as the brother-in-law of Mr. Guth, and his many friends mourn with him in his grief.

PORTLAND STABLES—An inspection of the Portland stables, recently opened by Messrs. Haines and Polin shows it to be a very well equipped establishment. Mr. Haines and Mr. Polin both came to this city from Cripple Creek, and are well acquainted with the needs of a first-class livery. Mr. Polin is particularly well known as a lover and judge of good horses. The stables which were bought of Fisher & Son during the past week have been thoroughly remodeled and now are in good shape. Several box stalls have been added to the equipment of the stables, and the flooring renewed throughout.

TAFT MUCH ENCOURAGED

Governor General Gives Facts Regarding Philippine Islands.

AND THE PRESENT CONDITIONS

Civil Government, He Declares, Is an Established Success and Appreciated by Filipinos.

By Associated Press.

Manila, Jan. 21.—The insurgent leader Briccio Laquefand his entire command on January 20 surrendered unconditionally to the American military authorities in Batangas province. Laquefand's command had become so scattered that it was unable to hold out any longer. He has been given one week to round up and hand over his entire party to the Americans. Laque has been operating in the neighborhood of Mount Macalod in Batangas province, Luzon.

By Associated Press.

San Francisco, Jan. 21.—Governor General Taft, who arrived from Manila last night, landed this afternoon. Governor Taft expects to start for Washington tomorrow. He will stop at Cincinnati, his home, en route.

Discussing conditions in the Philippines, Governor Taft said:

"I wish the press would correct the impression that there is war on the islands. The insurrection is confined to two localities—the province of Batangas and the island of Samar. This morning I received a most encouraging cable from General Wright, who is the acting governor in my absence. He said that owing to General Bell's strong repressive measures the trouble in Batangas was being quieted. He further said that 700 rifles had been surrendered, and as there are only 1,000 to 1,200 rifles in the province there is no doubt that Batangas will be as peaceful as any of the other provinces.

"I don't think General Bell will have need to adopt the reconcentrado principle in Batangas. I don't see that there will be any necessity for this as the dispatch plainly indicates that the province is in a fair way of pacification.

"The dispatch then says that there are 843 teachers in the islands in 450 places and 200 of these places are unoccupied by United States troops. I may say that the Filipino is not hostile to the teacher. One was captured some time ago but he was sent back in a hammock. The inference is plain that they entertain no hostility towards pedagogues or pedagogy.

"Now I wish to impress upon everybody that civil government is a success. There is a strong peace party in the islands and it is composed of the most influential men among the Filipinos. They are working earnestly and zealously toward bringing about happy relations between their countrymen and the government. They are using all that is in their power to bring in the recalcitrant leaders. I have never before been so encouraged as to the prospects of the Philippines as I have within the past three months. There has certainly been a great change in the sentiment of the people. They are beginning to appreciate the fact that civil government means better times for them.

"If you had seen the farewell receptions that were given me by the people on leaving the islands you would have realized that there was sincerity in the expression of the wish for civil government to continue. Before I left I received reports from governors of the different provinces and the tone of each report was most encouraging. I am encouraged and I shall so report to Washington.

"There are 35 provinces capable of government. The only place where there is trouble is in the island of Samar. That is the most difficult island for military operations. There are no roads, but the troops have to use water courses when water is pouring down the ravines to follow the natives to their fastnesses.

"But we are all confident that it is only a question of a short time when the island will be pacified.

"Judge Carlock, of the court of first instance, reported to me that the island of Cebu was quite tranquil. Mindanao is an island of great wealth. It's as yet undeveloped and when it is it will be of great value.

"Speaking of the Moros: the Moros are not capable of receiving a civil government. They still have tribal relations, as did our Indians, and obey their chiefs. There are two sets of Moros—the river Moros and the lake Moros. The lake Moros have been distinctly hostile to us and were active against the Spaniards.

"I am glad to say a better feeling has sprung up among them and they are now commencing to bring in the products of their lands and barter them. The river Moros have always been submissive. I don't wish to create the impression that the lake Moros are in a state of warfare.

"The great question and difficulty that presents itself to the government is the land question. The titles to land are very unsettled and it is a difficult matter to adjust them."

Governor Taft expects to return to the islands about March 1.

SMITH TAKES HAND IN BRITISH GOVERNMENT

By Associated Press.

Washington, Jan. 21.—Representative William Alden Smith of Michigan, a member of the house committee on foreign affairs, today introduced a resolution directing the state department to request the British government to withhold the sentence of death passed on Commandant Scheepers, who is about to be shot. The resolution follows:

"Whereas, It is officially reported that the British military authorities in South Africa have passed and are about to execute sentence of death upon Commandant Scheepers of the army of the Orange Free State, and

"Whereas, Said Commandant Scheepers, a subject of the Orange Free State, was captured while sick and wounded in the hospital and therefore should be considered especially entitled to all privileges and exemptions of a prisoner of war, and

"Whereas, His execution was lead to acts of retaliation and reprisal and thus make more difficult and distant the prospects of peace, and

"Whereas, The whole civilized world suffers from the effect of war waged between any of the family of nations, and

"Whereas, The people of the United States are moved by feelings of humanity in behalf of the sufferers from the terrible warfare now being conducted in South Africa, therefore

"Resolved, By the house of representatives, the senate concurring, that the British government be requested to set aside the sentence of death passed upon Commandant Scheepers and to accord him the customary immunities and privileges of a prisoner of war, guaranteed under the Geneva convention."

PRISONERS REVEALED GOVERNMENT PLANS

By Associated Press.

Panama, Jan. 21.—The exchange of prisoners was responsible for yesterday's disaster to the government. From the former the revolutionists heard of the plans of the government. The Lautaro's circulating pump was out of order and she had no steam up when she was attacked by the Padilla.

The Padilla, which was recently painted white so as to deceive the government officers as to her identity, advanced unrecognized to a spot about 300 meters from the Lautaro. She then began firing at the Lautaro. The position of the latter prevented her from using her two big guns mounted forward, but she returned the Padilla's fire with her small after guns. Her gunner, however, was the first man killed. The foreign crew of the Lautaro refused to obey orders. General Alban, who displayed great courage, was shot on the steamer's deck. General Garcia, a veteran officer, has been appointed military commander of the district in succession to General Alban. Senor Arjona is the civil governor.

It is believed that the revolutionary warships were damaged.

The capture of Panama by the revolutionists is considered impossible owing to the number of government troops there. The revolutionists are reported to be at Los Antinos, eight miles from Panama.

Passengers who arrived here by the train leaving Colon this morning report having met a number of revolutionists at Gordona station.

A spy sent by the revolutionary general, Belisario Porras, was captured here yesterday. Papers were found upon him which compromise certain important Liberals. The government has issued a decree [illegible] upon Gen. Carlos Alban, who was killed in yesterday's fight [illegible].

MONTANA MINING SUIT.

By Associated Press.

Helena, Mont., Jan. 21.—The big Pennsylvania mine suit will be argued before the supreme court tomorrow. The suit has been in the courts for two years. The record in the case is the largest ever filed in the state, comprising 4,000 pages of printed manuscript. The suit is entitled the Montana Ore Purchasing company against the Boston and Montana Consolidated Copper company and Silver Mining company. The original suit was for damages and an injunction, but the claim for damages was dropped and the decision was on the injunction. The lower courts decided in favor of the plaintiff. The property is considered one of the most valuable in Butte.

OPIUM SMUGGLER.

By Associated Press.

Portland, Ore., Jan. 21.—Larry Kelly was arrested today by Deputy U. S. Inspector Gallagher, with a [illegible] of opium valued at $500. Kelly arrived here this morning from Astoria and was arrested just as he was leaving the boat. He pleaded guilty in the United States court and will be sentenced tomorrow. Kelly recently served a term in the county jail for smuggling.

NEWS NOTES FROM DENVER

Proposition That People Ratify Supreme Court Decision—Possible Speakership Fight.

Denver Bureau Colorado Springs Gazette

Denver, Jan. 21.—Governor Orman seems to have been expecting a number of criticisms to be directed against his extra session call, but he also appears to be ready to meet them. Since he has proved that the wording of his call was correct for the larger measures, a number of criticisms have been directed against that portion of the call referring to the employers' liability bill. It has been contended that no subsequent assembly could alter the records of a previous session, and from this was drawn the conclusion that the third roll call could not be inserted, but that the entire bill must be repassed.

In support of his call language, the governor today showed volume 23 of the first edition of the American and English Encyclopedia of Law. On page 195 of this volume, it holds that either house can change a record in its journal at the same or subsequent session of the assembly. This would indicate that the senate can insert the third roll call. A number, however, insist that the roll call is missing and therefore the records cannot be changed. In speaking of the matter tonight, Senator Whitford said that he was positive the bill passed correctly. He said that on the evening after the vote was taken he and Lieutenant Governor Coates checked up the bill in its every stage of passage and found all of the roll calls. He said it disappeared sometime between then and the time when it was given to the secretary of state.

A report that a secret meeting was held by the Arapahoe delegates last night is going the rounds today and that at that meeting it was decided to introduce the following constitutional amendment: "No decision of the supreme court declaring unconstitutional any revenue acts or any part thereof shall be of any force or effect until it shall have been submitted to the people of the state and ratified by them."

Your correspondent could not verify the report of the secret meeting, but a number of the Arapahoe members expressed themselves as being in favor of the amendment and in hopes that it would pass. Senator Whitford had not heard of such a meeting and he named three other senators who had not attended. Representative Cannon when asked about the conference said: "I never heard of a meeting but I want to say that I am in favor of that amendment. I do not know where it originated, but it certainly has the correct ring to it. If it is constitutional, I should love to get an opportunity of voting for it."

Along with the call for the extra session comes the usual talk of a speakership fight. No direct opposition to Speaker Montgomery has developed as yet and many of those who opposed him last winter are of the opinion that it is better to retain him than to waste a lot of time trying to elect another. They say it would only arouse the old factional feeling and would delay the work. It cannot be told just how much opposition there is to Mr. Montgomery until the members arrive and the first caucus is held.

The extra session will have two new members: Representative Thomas J. Montgomery, who was elected to fill the unexpired term of Representative Weldon of Larimer county, and Senator James C. Arthur, who was elected to fill the unexpired term of Senator Evans, who died during the last session. No one will fill the place of Representative Gabrin, as he died since the last election was held.

The political position hunters are getting more numerous daily. A certain person today started out to obtain the position made vacant by the death of Representative Gabrin. He drew up a petition to present to Governor Orman asking for his appointment, and had obtained a number of signatures when some one told him that the constitution prevented the vacancy being filled by appointment. He is now spending considerable cigar money to keep the matter quiet.

Chief Armstrong of the police force has a new scheme which if introduced will, he hopes, aid the police materially. It is to place an arc light on every police box in the city. When a communication is sent in from a private source that some crime has been committed, the captain at headquarters will press a button and light all the call box lights in that part of the city. This will be a signal for the patrolmen to come to the box to ascertain the particulars. As it now is, the police only report hourly and in many cases practically one hour passes after the police station has been notified of a crime before the policeman on that beat reports and is apprised of the fact. With the light signals, their attention would be attracted at once.

For the month of December the death rate in this city was 13.78 per thousand. This indicates that the rate is growing less annually.

A. B. McCapes, state veterinarian, left for Nebraska this afternoon for the purpose of making some arrangements with the Nebraska authorities for the dipping and treating of mange cattle in the eastern part of Colorado and the western part of Nebraska. He wants that both states shall treat their cattle the same.

The board of control of the State Industrial school at Golden removed the following persons as a result of the investigation which was recently conducted against the school: Supt. Frank Mirrick; Matron Mrs. Lincoln Shryock; subordinate officers, J. A. Gallope and J. F. Smith. Assistant Supt. James Lynch was placed in charge of the school and will serve until the [illegible] meeting, when the positions made vacant will be filled.

Governor Orman this morning granted the requisition papers asked for by the Pennsylvania authorities for the return to that state of C. A. Weldon, who is wanted for embezzlement there and who is now in Colorado Springs.

CANNON EXPLAINS THAT HE IS NOT SUPERSTITIOUS

Special to the Gazette.

Denver, Jan. 21.—"Do you know," said Representative Wilbur F. Cannon of Arapahoe county today, "that I am not superstitious, but I saw something this afternoon that made my blood run cold. In the photograph room of the last assembly my picture is placed between those of Representatives Gabrin and Weldon, both now dead. Of course there is nothing to it, but somehow the thing has haunted me ever since, and while we are talking about superstitions, did you ever notice how the number 13 has followed that revenue bill from beginning to end? It just seems that that number has 'hoodooed' it continually. The bill was prepared for consideration by the thirteenth general assembly, by a committee that drafted it from the combined revenue laws of 13 states. It was introduced in the house on the thirteenth day of the session, and was referred to a joint committee composed of 13 members. They reported it back to the house on the 13th day of February and it was under discussion 13 days, when 13 of our members were one day accused of changing their votes on a certain section because of the undue influence of 13 railroad lobbyists. The same unlucky number followed it through the senate, and in the final compromise there were 13 assessors provided to value the corporate property. The representative hall has 13 doors and 13 windows, and to complete the hoodoo there are 13 Arapahoe members who actually believe their services are worth $13 per day to the state. As I said before, I am not superstitious, but since that law has been knocked out, I could not help but feel that the 13 had something to do with it."

NEWS NOTES FROM VICTOR

Victor Bureau Colorado Springs Gazette

Victor, Jan. 21.—John Sullivan, a miner employed at the Vindicator mine, this morning swore out a warrant for the arrest of his wife, Mrs. Maggie Sullivan. The woman was arrested at Manitou while on a Midland train which left here this morning for Denver. Mr. Sullivan states that when he went to work last night his wife was at home, but that this morning when he came off shift his wife, bag and baggage, was gone, together with $80 in cash, 10,000 shares King Gold stock, 1,000 shares of Los Angeles stock and other mining stocks. The couple have been married about one year, and the only reason for Mrs. Sullivan leaving Victor, it is stated, was because she was tired of married life. Constable Reagan from Justice Corbin's court will leave tomorrow morning for Colorado Springs to bring the woman back to Victor.

The water shortage that generally comes at this time of year was noticed for the first time in Victor today. The water was turned off all day, but the water commissioner states that it will be turned on tonight.

The Maccabees and the Lady Maccabees held joint installation ceremonies tonight and the recently elected officers were ushered into office with appropriate ceremonies. There was a large attendance.

The funeral services of Gus Peterson, who met his death in the May B. shaft last week from suffocation from carbonic acid, were held today at the undertaking parlor of Dunn & Co. Rev. James McLaughlin officiated, and the interment was at Sunnyside cemetery.

John Best of Central City is looking after his mining interests in the camp.

Dr. John D. Davison has been reappointed surgeon for the Midland Terminal and F. & C. C. roads in Victor.

25c One Way, 40c Round Trip.
5-day limit to Cripple Creek via Colorado Midland Railway.

ELKTON

Special to the Gazette.

Elkton, Jan. 21.—A marriage license was issued today by the county clerk to Ole Beneber Baney, aged 21 years, and Ella May Long, aged 22 years, both popular young people of this town.

The local lodge of Yeomen will give a box social on Thursday evening at Bernard's hall.

Mrs. Acker, who has been the guest of Mr. and Mrs. J. V. Sobley for the past three months, left yesterday for her home in Findley, O.

The little daughter of Mr. and Mrs. Leon Trout was buried this afternoon at Mt. Pisgah cemetery. Beautiful services were held at Lampman's undertaking parlor, Rev. Mr. Sisson officiating.

Mrs. Laura Hawkins and Mrs. Buck left yesterday for the latter's home in Denver, where Mrs. Hawkins will visit.

Miss Marguerite Wilson of Colorado Springs, who has been the guest of Mr. and Mrs. Hale, has returned to her home.

Thomas Siders returned yesterday from a visit to Smithville, Mo. His wife will return later.

KNIGHTS OF PYTHIAS SECURE LOW RATES

By Associated Press.

San Francisco, Jan. 21.—Gen. James R. Carnahan, commanding the Uniform Rank, Knights of Pythias, announces that the transcontinental lines have agreed to make a rate of $50 for the round trip from Chicago to San Francisco and return for the biennial meeting of the Knights of Pythias, which opens in San Francisco on August [illegible] of this year. From St. Louis, Memphis and New Orleans the round trip rate will be $47.50 and from Missouri river points $45. The dates of sale at all points east of Colorado and El Paso will be from August 2 to August 9 inclusive. The final limit on return will be September 30. Stop-overs will be permitted. These rates are the same as were made for the [illegible] encampment, and from the large attendance at the Pythian biennial meetings it is considered probable that 10,000 people will cross the continent on this occasion.

CRIPPLE CREEK NEWS NOTES

Direct Information Filed Charging Kearns Brothers With Murder of Gleason.

Cripple Creek Bureau Colorado Springs Gazette

Cripple Creek, Jan. 21.—A direct information was filed in the district court this afternoon charging James E. Kearns and Michael J. Kearns with the felonious murder of Martin Gleason, the late superintendent of the Wild Horse mine. The hearing of the writ of habeas corpus was set for 3:30 o'clock this afternoon, and shortly before that time the information was placed in the hands of District Judge Seeds. The Kearns brothers are held without bond. The complaint is sworn to by Deputy Sheriff W. M. Squires, and the state's witnesses are Deputy Sheriff John Moany, ex-Sheriff James T. Stewart, Sheriff [illegible] M. Robertson, City Marshal M. O'Connell of Victor, and —— Burch. Deputy Sheriff Squyres in the information swears positively that the two men now in the county jail committed the murder. The officials seem to have some evidence of a startling nature against the two men which they are keeping from the public. It is reported that a third man was placed in jail on [illegible], but this report cannot be verified. C. J. McFeely, the attorney for the Kearns brothers, states that he can account for every minute spent by the two men between 12 and 3 o'clock on December 26, the afternoon the murder was committed. The case has not been set for trial, but Mr. McFeely will ask for an early hearing for his clients.

The board of county commissioners today took action to put a stop to the war now being waged in the justice courts between T. F. Cella and John Buzanes. The board has ordered Justice Herrington to announce in his court that from this time on the prosecuting witness in any cases of this character must deposit with the court the costs of the suit, so that if the state fails to convict the complaining witness will be compelled to pay the cost of the action and not the county. Today in Justice Herrington's court, John Buzanes was put under $1,000 bond to keep the peace, especially in the case of T. J. Cella. This case will come to trial on February [illegible], at which time it is thought that Nicholas Ravery, who charges Buzanes with assault and who is now in the hospital, will be able to appear and testify.

Colonel B. F. Montgomery, speaker of the house, is making preparation to get that body of the state legislature down to business immediately upon convening next Monday. He is of the opinion that the house will commence to transact business on Monday afternoon. Mr. Montgomery is in favor of a curtailment of the force of the house, and, if his wishes are carried out, a large number of the appointive officers who served at the regular session will lose their positions. "We are going to Denver to fix up that revenue bill," said Mr. Montgomery, "and I for one am in favor of doing it with as little expense to the state as possible. After the governor's proclamation is read on Monday morning and notice is sent to the governor that the house is in session and ready to transact business, I am going to suggest to the body that about one-half of the clerks, etc., be done away with."

Among the mining deeds filed for record with the county clerk today was one showing the transfer of the Necessity lode claim No. 7683 from the Necessity M. & M. Co. to the Ajax G. M. Co. The Necessity lode is located on Battle mountain and adjoins on the north a property of the Ajax company. It is a valuable piece of ground and the consideration as named is $150,000. The deed was signed by William Lennox as president and E. A. Colburn as secretary of the Necessity M. & M. Co. Other deeds filed were Alice B. Thurlow to John A. [illegible]ler, 1-15 interest in the Mountain Wonder lode and parcels of the Burlington and Fulton lodes. In turn Mr. [illegible] transfers the property to Charles S. Dudley for a consideration of $350.

Receiver's receipts were filed today for the Minerva placer and the Minerva lode claim, issued to S. W. Hacken, trustee, and for the Storrs No. 2 lode, issued to A. Talberg.

The city council met tonight and listened to long arguments in favor of and against the repairing of the Nisenhart frame building at Third street and Myers avenue, recently damaged by fire. Mr. Z[illegible] proposed to repair the structure, but as it is in the fire district, some of the members of the council were of the opinion that a brick or stone building should replace the frame. No action was taken other than a resolution being passed to the effect that the council go in a body to the building and decide what shall be done.

Ex-County Assessor Matt Layden was in the city today from Colorado Springs.

Judge E. C. Stimson of Colorado Springs is in the city on legal matters.

Mayor F. J. Crane returned home today from a 10 days' business trip to Denver.

Mrs. W. A. Roper has returned from a two months' visit with relatives in Dansville, N. Y.

Mr. and Mrs. C. E. Patton are home from Denver where they have been for the past several days on account of the health of Mr. Patton.

C. E. Dudley, a well known mining man of Colorado Springs, was in the city today on mining business.

NEWS NOTES FROM PUEBLO

Big Advance in Value of Bessemer Property Within Past Six Weeks.

Pueblo Bureau Colorado Springs Gazette

Pueblo, Jan. 21.—Dr. McKeeby, who recently purchased a handsome residence on the Mesa, near the junction, has taken possession. While his main office will be en suite over the Riverside drug store, of which the Drs. McKeeby are proprietors, yet a portion of the residence will also be used as office and consulting rooms.

Major W. F. Townsend sold two lots in Bessemer today for $750 which were offered on the market six weeks ago for $200 less.

T. B. Whittington, superintendent of the foundry at the steel works, has been notified by a committee of union moulders that the local union moulders have decided to declare the strike at the C. F. & I. Co.'s foundry off and the shop as an open one. By the terms of the contract signed by the non-union men and the company, the former are to have 30 days' notice which will be given them as soon as Superintendent Whittington is able to resume his duties at the foundry, and all union moulders in Pueblo will be given the preference to return to work.

John Ecola, an Italian laborer at the steel works, caught hold of an incandescent light bolt last night and was knocked senseless by an electric shock because he was standing on damp ground when he seized the bolt, and it is said it was a miracle that he was not killed, as he received a heavy shock.

W. W. Prewett, formerly city detective, left at noon today for California, where he expects to reside permanently.

Will J. Orange left today for Boulder to attend a meeting of the regents of the State university.

E. T. Young, the energetic manager of the Progressive Mining & Investment company, left this afternoon for a few days business trip to New Mexico. He will return Friday.

Dr. E. P. Busey, superintendent of the State Insane asylum, is quite sick, being threatened with pneumonia.

Chief Clerk Thomas Sawyer of Rio Grande Superintendent J. J. Burns' office, returned this morning from Denver where he went to attend a meeting of the Rio Grande Hospital trustees. He says that Chief Surgeon O'Connor of the Salida hospital has been retained, and that the affairs of the institution will be conducted in the future as in the past.

Mrs. E. Y. Jones has gone to Fort Morrison for a visit.

Mr. and Mrs. J. W. Kearns have gone to Kansas City. Mr. Kearns is assistant yard master of the Colorado & Southern.

Mr. and Mrs. Peter Motts went to Trinidad this afternoon.

W. A. Arey, proprietor of the hotel Maine, is in Colorado Springs looking after his interests there.

Superintendent A. DeBarnard of the Missouri Pacific, arrived here this noon in his special car from Osawatomie, Kas. He is on a tour of inspection and will return to his headquarters tomorrow.

Attorney W. B. Townsend, who defended Lawrence Hex, the negro, who murdered Mrs. Lizzie Alley and William Whiteland, who is now in the condemned cell at the Canon City penitentiary awaiting death by hanging, yesterday filed a request with the board of county commissioners asking them that he be allowed to file a writ of exemptions in the supreme court at the expense of the county. Accompanying the petition was a recommendation from Judge Dixon who sentenced Hex, that the petition be granted, and also an affidavit from Hex himself, testifying that he is without any means whatever to carry his own case any further.

Contractor Owen Caffery expects to complete the construction of the new levee above the Santa Fe bridge this week, and then the work will be turned over to the state, county and city officials for acceptance. The work on the levee has been progressing rapidly, the weather having been favorable for a large amount of work and no time has been lost. It is thought that the new levee will prevent any overflow of the Arkansas.

A new awning and tent company will be established in this city by Colorado Springs people soon. The company has rented a building on Santa Fe avenue and expects to be ready for business next Monday. They state that they will employ a large number of people.

Rev. A. A. Hoskin's long cherished hope that he would be able to make an institutional church out of the Unity church will not be realized. At a meeting of the congregation last night the matter of building a new church was left in the hands of the trustees, who are opposed to the plans of the pastor.

The King Commission company at the annual meeting elected a board of directors as follows: H. B. King, E. E. Douglas, John Hanley, F. M. Payne and S. Payne. The board chose these officers: E. B. King, vice president; E. E. Douglas, secretary; S. O. Payne, treasurer, and general manager, F. M. Lodge.

The register and receiver at the land office are engaged hearing the testimony in the case of Augusta A. Record vs. Mulligan, which involves a timber and stone claim in Huerfano county. The protestants say that the claim is coal, and offer to pay the price as such. The commissioner of the general land office ordered the testimony taken.

The Santa Fe Railroad company's new line through Irving Place, it is said, will be opened for regular traffic in about a week. The new line strikes the old main line to Colorado Springs at the south end of Steamboat hill near Pinion. The old track through Central park will be taken up.

Manager J. B. McKennan of the steel works has gone to Chicago and expects to be away about two weeks.

C. S. Robinson, superintendent of the iron department of the C. F. & I. company, is down from Denver on business connected with the steel works.

George L. Horn, 41 years old, superintendent of the C. F. & I. company's mines at Burwind, died in this city last evening. The remains have been sent to Philadelphia.

It is reported here that Thomas Carro of the rail mill and Miss Maggie McGann, daughter of Mr. and Mrs. Michael McGann, will be united in marriage tomorrow evening.

John Slaydon, a former pipe fitter of the steel works, returned last night from California and will resume his old position at the mill.

J. C. Cromwell of the mechanical engineering firm of Garrett & Cromwell of Pittsburg that has charge of the construction of the open hearth furnaces at the steel works arrived here this morning from the east and will be here some time.

TRINIDAD

(Special Correspondence.)

Trinidad, Jan. 18.—The new board of county commissioners organized this week. S. Gregory was re-elected chairman and A. P. Anderson was re-elected county attorney. Dr. S. L. Blair was elected county physician to succeed Dr. Carmichael. Dave Eckhart was retained as clerk of the board.

All of the county officers except the assessor went through the formality of turning over their offices to themselves as their own successors.

Few changes were made in clerkships. Judge Lindsey reappointed his son Malcolm as clerk of the county court. John Douthit reappointed his daughter as deputy superintendent of schools and O. T. C[illegible] reappointed his son, O. T. Jr., as under sheriff. J. H. Roberts will remain as deputy county treasurer. It is understood that Max Tafoya will soon be transferred from the clerk's office to the treasurer's office and Vica Shobo has been transferred from the assessor's office to the treasurer's office. Urbano Vigil, has appointed his son Manuel Urbano as his deputy on the principle that if a public office is a family snap he might as well put his family in. Heretofore Mr. Vigil has refrained from appointing relatives.

Eugene Garcia is now holding down two jobs, one as assessor at $1,500 per year and one as clerk in the treasurer's office at $75 per month. Gene has not yet named his deputy, but if he should decide not to hold the job himself, it is thought that he will be able to find some one of his relatives who could be induced to take the place.

District court has been in session this week with some of the leading lawyers of the state in attendance. Several criminal cases have been disposed of with only one acquittal thus far. The most prominent case was the Forsyth case, the jury rendering a verdict of guilty after 40 minutes deliberation. Forsyth formerly published a small paper here called [illegible] in which he [illegible] an article derogatory to the character of Walter Bancroft a prominent young business and society man. Bancroft [illegible] the complaint against him. Forsyth gets little sympathy from [illegible].

The monthly report of the police magistrate shows [illegible] "booming" [illegible] collector for December with enough other [illegible].

A moral wave has struck the gamblers of Trinidad. About 10 days ago, very suddenly and without notice every gambling house closed and from the smallest to the biggest not a game has been running since, except the slot machines. Much speculation has been indulged in as to the cause of the move which is not understood. No orders had been given from police headquarters nor the district attorney's office and there was no reason to expect the calling of a grand jury at this term of court. But whatever the cause, Trinidad, which has always been a wide open town is now as tight as a drum.

No one knows how long the present situation will continue but it suits the legitimate business men who if they would organize could enforce the continued suppression of gambling.

F. D. Goodale who has been editor of the Advertiser for several years has sold his interest in the paper to his partners G. E. Hosner and A. F. Holenbeck and retires from his position. He has purchased the Littlefield book store.

No more board side walks will be laid in the city limits according to a resolution of the city council.

Invitations have been issued to the wedding of Miss E[illegible]a Japps and Louis D. Gump on January 22.

The Schneider Brewing company has completed a large ice house at the city water works reservoir where they have purchased the ice privileges for the season.

The ladies of the Presbyterian church gave a farewell reception at the old church Thursday evening. An excellent supper was served and a delightful program was rendered. Addresses were made by A. C. McChesney, O. L. Davis and C. H. Nichols. The church was organized in 1874 with 12 members and now has over 200 members. The old buildings will be removed next week and work will be begun at once on the new church building which will cost $10,000.

A civil service examination will be held at the postoffice February 5 for the positions of clerk and carrier.

Stops the Cough and Works Off the Cold.
Laxative Bromo-Quinine Tablets cure a cold in one day. No cure, no pay. Price 25 cents.

MONUMENT

Mr. Isaac Gutshal of Table Rock spent a few days last week with his son in Denver returning Sunday.

Mr. Ed Wise came up Sunday to move his family to Colorado Springs where they will make their home.

Mr. and Mrs. Shemwell and Miss Pring of Colorado Springs spent Saturday and Sunday with their sister Mrs. William McConnell.

Work has been begun on the new road between Monument and Palmer Lake. Mr. William Bartels has charge of the gang. When completed this will shorten the distance between the two towns about two and a half miles.

Mrs. Watts, Mrs. Laleen and Ella Watts were shopping in Colorado Springs Saturday.

Mr. Rhudy and Mr. Dan Eppler of Elbert were visitors in Monument last week.

Mr. and Mrs. Stout and son Wayne, Mr. and Mrs. Henry Walker and son Ralph, and Mr. and Mrs. McAlroy will start for California Tuesday where they will spend three months sight-seeing and recuperating.

Miss Florence Gutshal returned home Wednesday after a month's visit with relatives in Denver.

Mr. and Mrs. Doughty and children of Colorado Springs spent Sunday with Mrs. Doughty's parents Mr. and Mrs. Henry Walker.

The friends of Mr. Will Pring gave him a surprise on the evening of his 31st birthday. After a pleasant evening spent in games and music a dainty luncheon was served. The guests departed wishing Mr. Pring many happy returns of the day.

Mr. Henry Martin unloaded a car of coal for Mr. Lierd Monday.

Mr. E. A. Turner formerly of this place but now of Eastonville is here with the road gang.

Miss Mattie McConnell spent last week with her mother in Colorado Springs.

Rev. Mr. Bell moved his family here from Colorado Springs Friday. The people of Monument are glad to welcome them.

Miss Baker of Colorado Springs is visiting at the Walker ranch near Husted.

Ice men hope the present cold weather will continue until the ice is thick enough to put up.

Died—At his home near Colorado Springs, of Bright's disease Saturday, January 18, John Parker. Mr. Parker formerly lived on the Wetty ranch two miles south of town. About two years ago he was married to Miss McArthur and moved to the ranch near the Springs where he died.

The Woman's association will meet at Mrs. Kirk's Thursday, January 23. All members requested to be present.

Mr. Gitting is on the jury at Colorado Springs.

Little Russel Foster aged six years died at his home near Spring Valley, Wednesday, January 15 of scarlet fever. He was buried at Table Rock, Thursday, January 16.

Mr. and Mrs. John Nees visited a few days last week at the Foster home near Peyton.

Mr. and Mrs. Charles Younger entertained a few friends at their home Thursday evening.

Mr. Carlton of the Trading and Transfer company of Cripple Creek was in town Monday.

Mrs. Lamar of Greenland visited over Sunday with Mrs. Curry.

Mr. and Mrs. Maddox who were called away last week by the death of her brother returned to Monument Tuesday.

SUNDAY SPECIAL
VIA THE SHORT LINE,
LEAVES COLORADO SPRINGS 8:30 A. M.
SUNDAY, JANUARY 26.

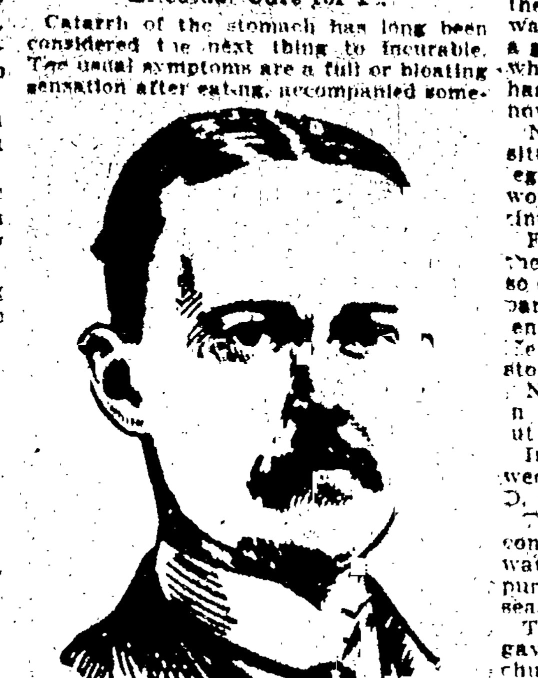

The people will have another opportunity to go to Cripple Creek on an early morning train next Sunday, January 26. The Short Line will run a special train leaving Colorado Springs at 8:30 a. m., leaving the camp returning at 3:00 p. m., while the regular train will leave at 4:00 p. m. Round trip fare is only 50 cents, and you will see something on the Short Line.

$2.90—Denver and Return—$2.90
Rio Grande January 23, return limit 24th.

Catarrh of the Stomach

A Pleasant, Simple, But Safe and Effectual Cure for It.

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing, headaches, fickle appetite, nervousness and a general played-out, languid feeling.

There is often a foul taste in the mouth, coated tongue, and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do, and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harlanson, the safest and best treatment is to use after each meal a tablet composed of diastase, aseptic pepsin, a little nux, golden seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets, and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. N. J. Booher, Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from their use."

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of the stomach, biliousness, sour stomach, heartburn and bloating after meals.

WITHOUT MEDICINE.

Good Food Will Cure Disease.

A good natural food that will correct constipation is a valuable thing. Grape-Nuts has that reputation among those that know.

A lady writes from San Pedro, Calif., that after suffering for a long time from indigestion and irregular bowels she changed her food and used Grape-Nuts regularly. She says she immediately began to improve and in a short time was entirely well. Commenting further she says, "The only fault I find with it is that it is so good I want to eat it all the time."

"Please omit my name but I will answer any letters if stamped envelope is enclosed." Name given by Postum Co., Battle Creek, Mich.

Pies, puddings, cake and goodies of all sorts (missionaries excepted) are intended for human use, but such good things should not be put in a bad stomach. They are nearly always made up of nourishing articles such as milk, sugar, butter, flour, etc., etc., but the combinations are too hard for any but healthy stomachs to digest.

You must use carefully selected food if you are a little below par, and the sooner you do this, the sooner your stomach will heal up and get strong again so that you can eat whatever pleases the appetite.

Don't be a crank and think you can only drink hot water and eat white bread.

Use Grape-Nuts breakfast food with some rich cream, and you will discover the food will agree with the weakest stomach and supply the highest form of nourishment, pre-digested and ready for quick change into good, rich blood.

Strength (nerve strength) comes from feeding on Grape-Nuts. There's a reason. Try it and prove for yourself. It seems good to be perfectly well and feel well fed.

The Secret of Success

In the drug business is to serve your patrons faithfully and well. It is especially necessary in this line, because of the absolute accuracy that is required in the compounding of drugs. The services of a physician are costly, and unless you can be sure his instructions as to medicine are carried out to the letter it is money thrown away.

Our "examined prescriptions" eliminate all this risk. They are compounded by a pharmacist of long experience, checked and O. K. by another equally well qualified, and thus absolute accuracy is assured. Our prescription trade grows daily. Try us.

A FABLE.

One day a wolf who had wandered further than usual came upon a farmhouse to find it seemingly unguarded and many fowls about.

"This is the soft thing I have been looking for," said the Wolf to himself, "and I'll just pick up that fat Gander."

He was about to rush upon his victim when he observed a fine, fat Lamb just beyond her, and he paused and said:

"Come to think of it, I prefer Lamb to Goose, and there are no feathers to stick in my teeth. I'll take Lamb."

He had approached within a few feet of the Lamb when he noticed the mother lying down amidst the grass, and thinking the matter over, he observed:

"It's a nice, fat Lamb, to be sure, but one would be a fool to take a Lamb when he can just as well have a Sheep. I'll go for the old Ewe."

The unsuspecting Ewe was almost in his jaws when the Wolf caught sight of a spring Calf frisking about, and he smacked his lips and softly whispered:

"Veal, eh? Veal always tickles my palate, and that Calf will make me two good meals. I won't look any further, but just take that Calf"—

"I'd go away back and sit down if I was you!" said the Farmer, as he came out of the house at that moment with a gun in his hands. "While I was huntin' up the gun you might have got the Gander; while I was lookin' for powder and shot you could have gobbled the Lamb; while I was loadin' up you had time to get away with the Ewe, but now that I'm here you'll have to go without veal."

Moral: When you strike a good thing hold it down.

A HIGH CLASS TOUR TO MEXICO.

The Colorado & Southern railway, in connection with the American Tourist association, will run a high class excursion to old Mexico, leaving Denver January 21, 1902. The tour will be comprehend everything of interest in the sister republic and will occupy 40 days. The party from Colorado and west will be under the personal escort of a representative of the passenger department of the Colorado & Southern. Special sleeping cars will start from Denver, joining the special train at San Antonio in which the entire trip through Mexico will be made.

It is hardly possible to comfortably view our neighbor republic, and particularly those portions not directly upon the main thoroughfares of travel, except by special train, and not many of our possible patrons are so situated as to be able to command complete special train service at pleasure. But if our reader were possessed of more than ate wealth, he could not by any expenditure of his means bring to his service more satisfactory or luxurious accommodations than offered in the special, vestibuled, dining car, observation car, Pullman train in which the tour will be made.

Leisurely schedules will be made with long stops and there will be no hurrying. It will be purely a pleasure—a sightseeing—an educational trip and withal restful. All objectionable features of the "personally conducted" system will be eliminated. There will be no processions on foot or in carriages or moving about in a body, a thing objectionable to many.

The trip will include such interesting places as the famous ruins of Mitla, Cuernavaca, Jalapa, Teocolo, Orizaba, Oaxaca and Tampico. Seven days will be spent in the City of Mexico. Three Circle Tours in the Tropics.

Tickets will include every proper item of traveling expense—railroad and sleeping car fares, meals in dining car, carriages, special street car trips, hotels, guides and interpreters.

It is not intended to take a large party, our idea being to make it select and comfortable.

For complete itinerary of the tour and information as to cost of tickets and for reservations, communicate with any Colorado & Southern Railway agent, or address T. E. Fisher, General Passenger Agent, Denver Colorado.

DR. HAZLETT AND THE NEW VOICE.

DR. A. C. HAZLETT is a Methodist Episcopal minister who went from Colorado City to Manila as a special commissioner to investigate charges of gross immorality in that city under American rule. Recently he returned to this country and state, and in an interview published in the Gazette on January 15 he stated the result of his observations, one of the most significant expressions being that

> With regard to the troops now on duty in the Philippines, Mr. Hazlett reports them as an excellent body of men who behave themselves nobly in every way. On the streets of Manila there is a noticeable lack of drunken soldiers, a condition that can scarcely be said to exist in some of the cities of this country. Manila, Mr. Hazlett believes, is more orderly and cleanly than any city of its size in the United States. Manila, with its 400,000 population, has a force of 300 metropolitan police, and since the American occupation there has not been a single case of resistance to arrest.

While in San Francisco Dr. Hazlett was interviewed by the newspapers there and gave expression to similar remarks, and among other things was quoted as saying:

> The moral condition of the city is better than ever before in its history. Since the American occupation the arrests for drunkenness have rapidly decreased in number.

The New Voice is a weekly paper published in Chicago and chiefly devoted to attempting to promote the cause of temperance by gross intemperance in language and argument.

The New Voice was naturally horrified by the failure of Dr. Hazlett to discover things in Manila grossly discreditable to American civilization and disgraceful to American army authorities. The New Voice apparently believes that Spanish tyranny or Tagal savagery or almost anything else is greatly to be preferred to an American army with a canteen system. In its issue of January 16 it gives first page prominence to an attack upon Dr. Hazlett, under the heading: "More Whitewash—Another Attempt of the War Department to Deceive the People About Conditions in the Philippines—A Stinging Challenge."

At the request of some readers, and in accordance with its usual custom of giving both sides of a matter of public interest, the Gazette reprints the New Voice article in full elsewhere in today's paper. The substance of the article is that Dr. Hazlett was prejudiced and that he went to the Philippines for the express purpose of giving a dishonest report. Whether the New Voice offers any substantial evidence in support of this charge will depend in most cases upon the mental habits of the readers thereof. Certainly those charges will gain no additional strength from the "stinging challenge," to which a sufficient answer was given by Dr. Hazlett in yesterday's Gazette:

> The reporter to whom I was talking in San Francisco has made me say something that I didn't say, by wrong punctuation. The paragraph in question reads as follows:
>
> "The moral condition of the city (meaning Manila), is better than ever before in its history. Since the American occupation the arrests for drunkenness have rapidly decreased in number."
>
> The period should have been placed after "occupation," and the paragraph should read as follows:
>
> "The moral condition of the city is better than ever before in its history since the American occupation. The arrests for drunkenness have rapidly decreased in number."
>
> Reading that way it is entirely different and that is the way I said it.
>
> In regard to the other things, the New Voice in one of its leaflets printed in August, 1900, made some serious charges concerning the morals of the islands, and charged General MacArthur with knowledge and approval of them. In reply General MacArthur denied these charges and requested that a commission be appointed to go to the islands and make a report of things as they were. Then the local W. C. T. U. of Columbus, Wis., named me as the commissioner and upon this recommendation I was appointed by Secretary Root. He furnished me with transportation and accommodations, and I have just received a letter from him asking me what I found out. I investigated the morals of the islands thoroughly and will make my report. There is no foundation for the charges in the New Voice but it is a fact that I will say something in condemnation of the charges made by it in August, 1900, and want it to appear in the light of a government official, in case I should. I would certainly lecture against the army canteen if I went on the lecture platform.

The evident purpose of the New Voice is to discredit Dr. Hazlett's report in advance. The charges made by this intemperate paper were one of the chief reasons why Dr. Hazlett was sent to the islands, and now that his testimony appears likely to be against it, it seeks to discredit the witness.

As a result of the recent railway collision in the Park Avenue tunnel in New York city, the New York Central Railroad company has purchased a large tract of ground at its terminus and will run its trains in a loop, thus avoiding the danger of collision between incoming and outgoing trains. The change will be enormously expensive, but is made necessary by the immense amount of passenger traffic handled, and the increased safety of the traveling public is expected to compensate for the outlay.

The reason for the long discussion of the Philippines tariff at the present time may be that congress wants to get plenty of preparation for the discussion of the Cuban reciprocity treaty.

COLORADO SPRINGS AND CAPITAL.

THE DEVELOPMENTS of the past week show how quickly and eagerly Colorado Springs capital is sought for by the promoters of mining enterprises in the west. At the present time operators at Florence, Boulder and even as far distant as Beaumont, Texas, are bidding for the attention of Colorado Springs' capitalists, and are receiving the response of investigation and investment.

The condition is one which is entirely satisfactory to all interested in the larger development of our business interests. We know perfectly well that the capital is here, together with the intelligence and the experience necessary to use it in such a way as to get the best results, and we are very glad that other people outside of this city are becoming acquainted with these facts.

One thing that is very pleasant to know is that the people who have been residents of Colorado Springs, and who have become familiar with the conditions existing here, but who have gone to other regions and are now engaged there in the promotion of various enterprises, are precisely the ones who appeal with most confidence for the help of their former fellow townsmen in carrying out their plans. This is one of the reasons why the investments of Colorado Springs are extending over so wide an area, and it is also one of the reasons why Colorado Springs seems invariably to get in on the ground floor whenever any important discovery is made in this or an adjoining state. There are a great many people not actually residents in this city who retain their full measure of faith in its future, who are willing to do it a good turn whenever they can, and who look forward hopefully to the time when they can return to live among us.

CRIPPLE CREEK DRAINAGE TUNNELS.

A SUBJECT of great importance to Cripple Creek mine owners was treated in a communication that appeared in yesterday morning's Gazette. The author, himself a large owner of mining property in the district, has had an extensive acquaintance with mining operations, and his views are well worthy of general attention.

A tunnel two miles in length, it is said, would drain many of the great mines of the district to a depth of 2,000 feet, while a tunnel five miles in length would drain the mines to a depth of 3,000 feet. The cost of constructing these tunnels is entirely out of proportion to the benefits to be gained, it being estimated for instance that the cost of machinery and fuel for pumping for a single mine would be more than one-third the cost of digging the two-mile tunnel.

The Cripple Creek mine owners have not been slow to act in concert where their mutual interests are concerned, and it would seem that here was an opportunity for them to give fresh evidence of their good business sense.

If the Cripple Creek mines are to be worked to a depth of one, two and three thousand feet, the cost of pumping out the water is going to increase so rapidly that it will soon check the working of many of the low grade mines. The drainage tunnel costs nothing to operate, and if the cost is equitably distributed it will bring no hardship to any one.

A MEXICAN VOLCANO.

FOLLOWING the disastrous earthquake at Chilpancingo in the state of Guerrero, Mexico, comes the news of an outbreak of the volcano of Colima, which is situated nearly 300 miles distant to the northwest. This mountain has an altitude of 12,758 feet, is almost directly west of the City of Mexico and about 60 miles from the seacoast. It is not classed as an extinct volcano, though the outbreaks of volcanic activity have not been severe of late years.

A theory very generally accepted is that volcanic disturbances are generally on the decrease, and the large number of extinct volcanoes and lava beds give strong evidence along this line. But the authorities are not entirely agreed upon this subject, and it is certain that the earth has not yet reached the stage where increased volcanic action in a particular district is impossible. As outbreaks of this kind are periodical, and aside from this, there is some reason to believe that several years or even centuries of increasing quiescence may be followed by a period of similar length in which the outbreaks become much more severe and frequent.

Owing to the remoteness of the region and the lack of modern transportation the scenes of the earthquake and of the eruption are not familiar to tourists and there will be no rush to the locality, not even by the newspaper reporters.

The city council should not be in too much of a hurry to sell Evergreen Cemetery to a private corporation. There may be excellent reasons for such a transfer, but the first sentiment of the people will be strongly against it. The present committees should not be too hasty in confessing their inability to look after this particular part of the city's business.

One of the committees of the house of representatives has decided that the singular verb should be used with the subject United States. This is contrary to the wording of the Constitution, in which the common expression is "The United States are." The usage recommended by the house committee is, however, much more in accordance with the sentiment now generally prevalent. At the present time the United States is a nation and not a collection of semi-independent states, as it was at the time the Constitution was adopted. It is, therefore, better sense and better judgment, and more in accordance with present conditions of things, to say the United States is, rather than the United States are.

NEW WORLD'S BOOK.

World's Fair Classification Shows the Marvelous Activity of the Human Race—Every Art and Industry Has a Place.

An advance copy of the classification book for the Louisiana Purchase exposition at St. Louis in 1903 has been received. Fifty-three pages are required for a mere enumeration of the groups and classes of exhibits. The exhibits of the entire exposition are divided into 15 departments as follows: education, 8 groups; art, six groups; liberal arts, 13 groups; manufactures, 34 groups; transportation, six groups; agriculture, 27 groups; horticulture, seven groups; forestry, three groups; mines and metallurgy, five groups; fish and game, five groups; anthropology, four groups; social economy, 12 groups; physical culture, three groups. The total shows 144 groups and 807 classes, and under each class is a possibility for a multitude of exhibits. Nothing reflects more clearly in so small a space the variety of human occupations or more comprehensively the broad scope of the great exposition which the people of St. Louis are preparing for next year. A place is provided for every conceivable product worthy of exhibition and all nations of the world have been invited to take part. Acceptances have been received from many. The work of construction is progressing earnestly. The buildings will have an aggregate floor space of 200 acres and the grounds a total area of 1,000 acres. The money now available aggregates 15,000,000, besides 1,000,000 appropriated by the state of Missouri and various liberal sums from other states. The "Classification and the Rules and Regulations of the Exposition" will be mailed free on application to the director of exhibits, world's fair, St. Louis.

THE OPEN PARLIAMENT

Mr. King's Recitals.

To the Editor of the Gazette.

Dear Sir: Some of your readers have noticed with much satisfaction that Mr. Samuel Arthur King who is to give two recitals from Shakespeare to Colorado Springs audiences during this week and next brings with him the highest commendations from Mr. Henry Austin Clapp, the distinguished critic. No lover of Shakespeare should miss an opportunity to hear a reader who can secure the approval of Mr. Clapp.

I do not know Mr. King but such indorsement as he brings is introduction enough and should assure him a very generous audience.

Very Respectfully Yours,

N. C. Gile.

Jan. 20, 1902.

What Became of the Coins?

"There is something curious about the American silver dollar and half dollar of 1804," said a well known numismatist of this city. "In that year something like 20,000 of the dollars were coined, yet it is a singular fact, as is now known, that not one of them was known to be in circulation. Yet the most precious of all American coins are two 1804 dollars which are in well-known collections. They are valued at $2,000 each.

"It has been determined to the satisfaction of every numismatist that these two dollars were not coined until 1828, although they were struck from the original 1804 dies. They were secretly made—a thought such a procedure is a penal offense—for some one high in influence and authority, who desired them for certain coin collections. It has never been positively ascertained how the surreptitious work was accomplished, but there is no doubt that it was done.

"Why the dollar of 1804 was never seen in circulation after leaving the mint is one of the unsolved government mysteries.

"A still greater mystery surrounds the half-dollar of 1805. Of this coin nearly 160,000 were struck. Not one was ever discovered in circulation. The quarter-dollars of 1804 are numerous enough—so plentiful, in fact, that a fair specimen can be bought for $2 and their coinage amounted to 7,000 pieces.

"A curious thing has been discovered regarding the half-dollar of 1805, which is not a rare coin, except in the case of those possessing the rare curiosity I speak of, which increases the value tenfold. This is the die figure '5' in 1805 has been struck over a figure '4,' showing that the coin was really one of the undiscovered minting of 1804.

"What became of the large issue of 1804 half-dollars? No one knows or ever will know; but it is evident that all of them were not issued from the mint, and this belief that there was some reason for not desiring the coin to circulate is strengthened by the mint obliterating the date on what was left by making 1805 half-dollars of them.

"There was no silver in an issue from the mint in 1805, yet 32 were coined, and are in the hands of collectors today, just as they came from the die. No dollars were coined by the government after that until 1836."—(New York Times.

Rare Portrait of Martha Washington.

Several days ago an eastern family living in Kokomo, Indiana, concluded to migrate farther westward, and the young wife sent a collection of heirlooms to a junk shop to be sold to the best advantage. Among these was a painting of Martha Washington, which the woman wanted to get rid of because it was old and shabby looking, and the junk dealer took it off her hands.

He threw it to one side as practically worthless, but the picture accidentally caught the eye of Mrs. Frances Haberly-Robertson, of Fort Wayne, who chanced to be in Kokomo, and she bought it for $1, the junk dealer congratulating himself on the profit realized. Mrs. Robertson has devoted much time to art criticism and lectures on art and has made several trips abroad in pursuit of her studies.

She recognized the picture at a glance as something out of the ordinary and carried it to her home at Fort Wayne, where it was cleaned and appropriately framed. The effect was striking, for it disclosed a beautiful piece of art. Concerning the picture Mrs. Robertson says:

"It is surrounded with a great deal of mystery. There is no name on it or other clue to its origin. From certain details I am inclined to believe that Gilbert Stuart, whose pictures of Washington are so well known, was the artist. I do not even know how it was done. It looks like a lithograph, but if you will notice the soft effect of the lace in the gown, the haze over the field in the background, the beautiful tint of the sky and the most natural coloring of the oak leaves that appear in the corners you will see that it is the work of a true artist. I have never before seen any picture of Martha Washington like this one and I shall be very glad if a discussion reveals its origin."—(Los Angeles Herald.

Mrs. Thomas M. Patterson, wife of the new senator from Colorado, is best known at home for her work in the promotion of educational and philanthropic enterprises. She has been especially interested in the art decoration of the schools of Denver, and was the leading spirit in the movement which raised and expended many thousands of dollars in this work. The pictures were Braun photographs, copies of oils, and other high-class reproductions of the world's great paintings. The latter, as every one knows, run largely to Biblical and mythological figures. Under her management an entertainment was given to raise funds to decorate a certain building, and the pupils were asked to sell tickets. One boy took a ticket to his father, explained the object, and solicited patronage.

"Pictures," said the father, "what kind of pictures do they put up?"

"Oh, Venuses and Venuses," said the boy.—(New York Times.

Americans have not the reputation of Europeans for elegant speeches, yet there are many occasions when they earn the envy of the people who are more given to saying pretty things. At a recent private dinner at which Seth Low and his wife were guests, one of the diners said to the new mayor:

"You must be proud to be the husband of the first lady in New York."

"I am proud," said the mayor gallantly, as he glanced tenderly at his wife, "to be the husband of Mrs. Low."

On a similar occasion recently the American ambassador to the court of St. James paid a graceful compliment to his wife.

It was at an informal dinner, at which the guests were intimate friends, some one wondered what each in turn would answer the question:

"If you were not who and what you are, who would you prefer to be?"

When it came to Mr. Choate's turn, he said: "I would prefer to be Mrs. Choate's second husband."—(New York Times.

BAD ACCIDENT AT PIKE VIEW

Can of Powder Blew Up Yesterday Morning and Injured Four Coal Miners.

By the exploding of a keg of powder in the Pike View coal mine yesterday morning four men were painfully burned, one of them so seriously that his life is in jeopardy, although the attending physician says his recovery is probable. The victims were Joe Merino, Pete Flavin, William Greenfield and Arthur Lauterman. Merino is the most seriously injured and he and Flavin are at St. Francis hospital under the care of Dr. McKinnie.

The accident occurred at 7 o'clock in the morning. The men had descended into the mine in the cage, one of them carrying a keg of powder on his shoulder. As they stepped from the cage it is said that the man who was carrying the keg dropped it. There was 25 pounds of powder in the keg and it exploded.

All four men who were near were injured. Merino was burned about the face, arms, hands and legs. The others were painfully burned, but not seriously.

Greenfield and Lauterman suffered the least, and after their injuries were dressed they remained at the mine. The other two men were taken to the hospital.

Yesterday's accident was the first serious one of its kind in the history of the coal mines north of Colorado Springs. It is said to have been due to the carelessness of the workmen, although there are conflicting stories of how it happened.

Philanthropy School Had a Lively Meeting

A great deal of enthusiasm was manifest at the first meeting of the School of Philanthropy yesterday afternoon at the First Baptist church. This school is organized under the direction of Rev. E. Evans Carrington, who yesterday made the first address before the organization. The subject of poverty was discussed by Mr. Carrington; the causes and methods of prevention were studiously searched into. The values of early training and the training at the home were spoken of in order that the means of the prevention of poverty may become more effective.

Miss McLain was appointed secretary of the society or school.

The objects of this school are the expansion of the scope and usefulness of the Associated Charities, and to interest young people in the study of philanthropy from a practical standpoint. The Associated Charities is promoting a City hotel on West Huerfano street. The renovating will be completed during the latter part of this week, and in all probability, it will enter upon its career within a few days. In its limited way it is patterned after social settlements in larger cities. Meals and lodging are offered the needy after the requisite amount of work, equivalent in value to the accommodation, has been done. Thus it escapes being a charity institution, as the term is generally interpreted, for nothing is really given away except for value received.

TO CURTAIL THE TAXING POWER OUTSIDE ASSEMBLY

"There certainly ought to be some provision in the revenue law," said State Senator H. H. Seldomridge last evening, "to limiting the power of boards of county commissioners and city councils in levying taxation. If the state increases the assessment of property, the local authorities should have their taxing powers decreased proportionately, for otherwise there will be an inevitable tendency toward extravagance in county and city affairs. This would appear to be already the case in certain localities, for while the assessment is much higher than it was last year the rate of taxation is practically the same or only a slight decrease and the result is that the tax-payers are paying much higher taxes than they were a year ago. The legislature certainly ought to provide some method of protecting the tax-payer and this was not done in the revenue measure passed at the regular session.

"I would be glad to get the opinion of tax-payers of this county upon this subject and to learn what the wishes of our people in the matter are. My present intention, however, is to introduce a provision of this kind and to do my best to secure its passage."

DEATH OF MRS. AUSTIN OCCURRED IN DENVER

Mrs. Emma [illegible] Austin, wife of Charles H. Austin, traveling auditor for the Rio Grande railroad, died at a sanatarium in Denver Monday. The funeral will be held today in that city.

Mrs. Austin was a claimant to the ownership of the Cave of the Winds and Grand Caverns near Manitou. Her mother and George Snider of Manitou owned the caves together, but they had a dispute and the courts were appealed to to settle the question of ownership definitely. Mrs. Rhinehart, Mrs. Austin's mother, died and her husband kept up the litigation. Mr. Rhinehart died and Mrs. Austin took up the burden. As Mrs. Austin left no will it is not known whether the litigation will be abandoned by her heirs or not.

REV. BENJAMIN BREWSTER HAS RECEIVED THE CALL

Rev. Benjamin Brewster, rector of Grace Episcopal church, who has received a call from a church at Cumberland, Md., is considering the advisability of accepting the call. He has received a letter from the vestry of the church at Cumberland.

The parish to which Mr. Brewster has been called is one of the most important in Maryland. The retiring rector of the church is an old friend of Mr. Brewster's.

"I shall not decide whether I will accept the call until I give the matter full consideration," said Mr. Brewster yesterday.

DEPARTMENT CALLED TO OTIS RESIDENCE

About 3:30 o'clock yesterday afternoon soot in a chimney of William A. Otis' residence at the northwest corner of Tejon and Uintah streets, caught fire and made such a smoke that people passing by thought there was a serious blaze. The occupants were notified and an alarm was telephoned from the house to headquarters.

The central and north end companies responded, but their services were not needed, and the flames did not spread from the chimney. There was no damage.

COLLEGE CONTEST DATE CHANGED

The date of the college local oratorical contest has been changed from February 21 to February 12.

The winner of this contest represents Colorado college in the state contest which will be held here February 2[illegible].

OFFICE IS MOVED—Dr. Lawrence has moved his office from 5 North Tejon street, where he has been located for many years, to 8 and 9 Cheyenne building, where he has a very attractively arranged suite of offices.

DENVER AND RETURN, $2.90.

Good on all trains on the Santa Fe January 23. Return limit, January 23. Get tickets at Santa Fe office.

$2.90—Denver and Return—$2.90

Rio Grande January 23; return limit 24th.

25 cents to Cripple Creek by the Colorado Midland railway.

LUMBER MEN MEETING HERE

Having an Enthusiastic Convention and a Pleasant Time—Another Session Today.

At the annual meeting of the Colorado, New Mexico and Wyoming Lumbermen's association yesterday, resolutions were adopted urging immediate legislation tending toward irrigation by the national government and also petitioning the Washington representatives of Colorado and Wyoming and the New Mexico delegate to use their efforts towards protecting the sugar beet industries in the west by retaining the present tariff on sugar. The resolutions were unanimously adopted, and a copy of them will be sent to the senators and representatives. The committee who drew up the resolutions is composed of Clinton Biggs of Canon City, C. B. Goddard of Sterling and Mr. McAllister of Boulder.

The resolutions adopted were as follows:

Whereas, The sugar beet industry of the United States, and particularly of the western portion thereof, is making rapid and substantial progress under present conditions affording, as it does, a profitable occupation for thousands of families and a safe and legitimate investment for capital in erecting and operating manufacturing establishments in localities where sugar beet growth is encouraged; and

Whereas, We believe that the taking off or reduction of the existing tariff on sugar would be a severe and a direct blow that would largely cripple this promising industry and result in serious loss to the agricultural interests of the entire west; therefore, be it

Resolved, By this association that it recommends that the tariff on sugar imported into the United States be maintained as it now exists.

Resolved, That these resolutions be spread upon the records of this association and a copy thereof be forwarded to our senators and representatives and furnished for publication.

Whereas, The continued development of Colorado, New Mexico and Wyoming and the great growing west is dependent upon irrigation to a large degree; and,

Whereas, Local capital is inadequate to finance the enterprises necessary to a proper development of reservoir systems whereby a greater amount of the waters of the various sections of the west can be stored for irrigation by such reservoirs, enlarging, as it will, the demand for labor, increasing the opportunities for home building, affording, as it will, a legitimate opportunity for investment among the common classes, which will greatly enrich our nation and result in great good to our entire people; therefore, be it

Resolved, By the Retail Lumbermen's association of Colorado, New Mexico and Wyoming that we favor speedy and adequate provision by congress for the construction by national aid of a system of reservoirs throughout the arid west for the storage of its surplus waters to be used for general irrigation purposes, under regulations consonant with local laws and customs of the country. That we most heartily commend and indorse the recommendations of President Roosevelt on this subject in his recent message to congress and the efforts of our senators and representatives toward the early accomplishment of such measures.

Resolved, That these resolutions be spread upon the records of this body and that a copy thereof be sent to President Roosevelt and each of our representatives and furnished for publication.

The association was called to order by President R. W. English, of Denver, who is one of the jolliest of the entire crowd. He made one of his usual witty speeches, advising the association in business matters, and urging the need of closer union among the members of the lumber industry. Following Mr. English, Mr. H. H. Hemenway, secretary and treasurer of the association, made his annual report. He spoke of the fight of the retail lumber men against the wholesale men, saying that there was but one wholesale lumber firm in Colorado Springs who committed the breach of selling direct to consumers—which was the point of contention among the lumberman. For wholesale men to deal directly with the consumer is not only an infraction of business etiquette, but is also an infraction of the law, unless it is especially specified by such dealer that his business is of both kinds. The amount of money in the treasury is about $100, and as soon as the dues are paid up today, this amount will be considerably augmented.

The committee on resolutions was appointed to consist of Mr. Clinton Biggs of Canon City, Mr. Goddard of Sterling and Grant Hemenway of this city.

In the evening, the members of the association, and their wives dined at the Antlers. They sat down to a sumptuous banquet at about 8 o'clock and after this, all of them went to the Opera house to hear the Chicago Symphony orchestra.

Today they will be guests of the Suburban company on a ride over its system. After luncheon, the annual election and selection of place of meeting will take place. This is the first meeting of the association in this city, and all of the gentlemen are enthusiastic in their praises of Colorado Springs, and only wonder why they never met here before. Previous to this year, it has been the unvarying custom to meet in Denver, but hereafter, the place will be selected at each annual meeting.

The members of the association present were:

R. W. English, Denver; Horace Richards, Portland, Ore.; Grant Hemenway, George M. Houston, F. E. Johnson, Colorado Springs; J. B. Cunningham, Victor; V. C. Davenport, Charles A. Black, Fort Collins; R. [illegible] McGregor, William McFarland, Denver; C. A. Biggs, Canon City; E. W. Hurlbut, I. T. Downer, J. M. Conine, Denver; Larry Maroney, G. C. Hill, Cripple Creek; Frank T. Dickinson, Victor; John [illegible] Wallace, Hooper; O. A. Cramer, Monte Vista; D. E. Wychoff, Idaho Springs; W. M. Gibson, Denver; Tom J. Gardner, Las Animas; C. B. Goddard, Sterling; D. C. Donovan, Longmont; C. J. Warner, Fort Morgan; Wallace Holcomb, Castle Rock; J. T. McAllister, Boulder; H. A. Chilson, Akron. A number of the visitors are accompanied by their wives.

WILLIAM ALLEN WAS SENT UP FOR 30 DAYS

William Allen, a youth, who was arrested Monday night by Chief of Police King, accused of the theft of a set of harness from C. A. Bonham, pleaded guilty to the charge yesterday before Justice McClelland and was sentenced to 30 days in the county jail.

The harness was stolen Monday afternoon from a barn on Carpenter alley and Allen sold it at a second hand store. He was arrested by Chief King two hours after the theft.

A wedding was substituted for criminal trial yesterday morning in Justice McClelland's court.

Marcellus Shirley, a young man who was arrested in Cripple Creek Monday by Sheriff Gilbert on a charge preferred by Stella Rogers of this city, was brought into court by the sheriff for trial. Miss Rogers said she did not care to prosecute Shirley, and the young man proposed marriage. Miss Rogers said "yes" and Justice McClelland performed the ceremony.

S. A. Bradburn, a middle-aged man, who lives in the rear of No. 11 North Wahsatch avenue, was arraigned yesterday before Justice Ruby charged with having attempted a criminal assault upon Florence Cooley, six years old, the daughter of C. D. Cooley, of No. 3 North Wahsatch avenue. Bradburn was remanded to the county jail in default of $500 bail pending a hearing.

The attempted assault is said to have taken place Monday afternoon at Bradburn's home. The little girl was at his house at that time.

Bradburn has been arrested for disturbance, but this is the first serious charge made against him. He confesses his guilt. The warrant for his arrest was sworn out by the girl's father.

DECREE GRANTED IN JONES DIVORCE CASE

Florence Jones was granted a divorce from Joseph Jones yesterday in the county court. Mrs. Jones alleged that her husband had been cruel. They were married in Springfield, Ohio, in February, 1880.

In the district court the El Paso Lumber company filed a mechanic's lien suit against A. B. Weis and others.

A petition was filed in the district court by Kittie E. Pension, guardian of the person and estate of Kittie [illegible] Norris, heir of Catherine Norris, to sell certain real estate.

C. H. Vickers pleaded guilty in the criminal division of the district court to having stolen a bicycle. He will be sentenced today by Judge Cunningham.

VICTOR WOMAN CHARGED WITH ROBBING HUSBAND

While on her way from Victor to Denver after she is said to have robbed her husband, a miner, Mrs. Maggie Sullivan was arrested at the Santa Fe depot yesterday morning. She is locked up at the county jail and will be taken to Victor today.

Mrs. Sullivan's husband left home Monday night about 11 o'clock for work, and when he returned his wife was missing. Her trunk was gone and also, says the husband, John Sullivan, $80 in cash and several thousand shares of mining stock, all of which belonged to him.

Sullivan reported the disappearance to the Victor police and it was learned that Mrs. Sullivan had left for Denver on the Midland train. A complaint giving a description of the woman was sent to the sheriff's office and Sheriff Gilbert went to the Santa Fe depot and arrested Mrs. Sullivan on the train after it arrived.

CHIEF KING DOESN'T WANT GREENFIELD

Chief of Police King yesterday notified the authorities of Los Angeles that George P. Greenfeld, who was arrested there Monday on an old charge of forgery brought by his wife, now Mrs. D. F. Gaines, is not wanted here. The action was taken because there is no indictment in the local courts for his arrest. Policeman Gaines and his wife, who married him after she supposed Greenfeld was dead, are in Los Angeles, but it is not thought they will seek to have Greenfeld brought to Colorado Springs. Mrs. Gaines will probably secure a divorce from her first husband.

The police here have received no word from Gaines or his wife. They went to California recently on a pleasure trip. It is supposed that they found Greenfeld in Los Angeles and caused his arrest.

Shakespeare tickets at Rex's and Coburn library. At course tickets, 75 cents; single tickets (reserved seats). Admission 50 cents.

Trunks, valises, harness, at Farbaugh's at cost for January 13, 14, and 15. 11 to 13 South Cascade avenue.

Theater and party carriages and broughams; fine liveries. [illegible] Livery.

Dr. Cole has associated himself with Dr. Chamberlin, dentists. Phone [illegible]-A.

PERSONAL MENTION

Mrs. W. S. Fox is very ill with pneumonia.

A. R. McGregor of Fort Collins, is at the Alamo.

C. E. Tarlen of Denver, is a guest at the Alamo.

W. N. Gray of Leadville, is at the Alta Vista.

B. J. Devlin of Pittsburg, is a guest at the Antlers.

E. A. Steele of Ogden, is a guest at the Alta Vista.

R. C. Vacey of Sterling, is registered at the Alta Vista.

John H. Ayers of Victor, was a visitor in the city yesterday.

J. Mills of San Francisco, has taken apartments at the Plaza.

Allen Austin of New York, is a recent arrival at the Alamo.

Miss Theresa Inverness of Brooklyn, N. Y., will spend the winter in Manitou.

F. G. Lysten, a well-known smelting man of Aspen, is stopping at the Alamo.

City Editor Wilson of the Pueblo Star-Journal was a visitor in the city yesterday.

James Doyle, J. C. Cunningham and Frank T. Dickinson of Victor, registered at the Alamo.

Benjamin Benton and E. H. Patcher of Lancaster, Mass., are among the later arrivals at the Alamo.

Mr. and Mrs. S. W. Fellows of Newton, Mass., are among the recent arrivals at the Alta Vista.

Ida Pindes, ein, 318 East Monument, goes to New York to study music for a year under Prof. Lambert.

C. D. Majors, foreman of the news room at the Pueblo Star-Journal, was a visitor in the city yesterday.

Mr. and Mrs. C. S. Stover of Brookfield, Mass., have taken a cottage in Manitou for the rest of the winter.

W. S. Boynton is recovering from a serious illness. He was able to be out Monday for the first time in two weeks.

F. D. Bradley, Mr. and Mrs. Henry W. Byers, W. J. Walters and Fred Aspell of Chicago, are registered at the Antlers.

Phillip D. Wilson expects to leave this morning for Boulder in the interests of Bonbright & Company. He will be away indefinitely.

Mrs. George W. Armstrong and family of Boston, are among the guests who arrived yesterday at the Antlers. Miss Susie Jackson is with them.

Miss Helen Hunt of 1106 East High street, has returned from Denver, where she has been visiting since Christmas with her relatives and friends.

Denver people at the Alamo yesterday were I. T. Downer, J. M. Conine, G. L. Clough, F. J. Bettele, J. A. McFadden, E. W. Kirchner, E. W. Hurlbut and W. M. McFarland.

Mr. and Mrs. E. E. Nichols and family of Manitou, have returned from the east, and are living in Denver until March 1. They are occupying the Ashley house on Grant avenue, opposite the capitol.

J. A. Himebaugh of the Spaulding house, has gone to Boulder to look after his prospective oil gusher. Mr. George S. Elston and Mr. Himebaugh are jointly interested in oil property in Boulder.

S. A. King of Boston, is in the city to deliver a series of Shakespearean lectures at Perkins hall. Mr. King is a fellow graduate of the Royal university of London, and has a reputation as one of the great Shakespearean scholars of the day. He is a guest at the Plaza.

The leading people of the Chicago Symphony orchestra, including Mme. Ragna Linne, E. C. Towne, Frank Wagner, C. W. [illegible] van Oordt, Adolph Rosenbecker, C. B. Hackman, Day Williams, W. C. Martins, Guy Woodward, Charles Beach and others, are guests at the Plaza.

William Allen White, editor of the Emporia, Kas., Gazette and one of the best known writers whom the west has produced, will arrive in the city this morning, accompanied by his wife and child, to visit with relatives. Mr. White is a nephew of Mrs. C. W. Graham and cousin of Mrs. Frank Boynton and will be a guest at their home, 1229 North Weber street. His name has been prominently before the readers of the country recently in connection with his several character sketches published in McClures, a recent article in the Saturday Evening Post and numerous other writings.

ISABELLA MEETING POSTPONED

Will Be Held Saturday According to a Previous Agreement—Reports Detail the Condition of the Company's Property.

The annual meeting of the Isabella stockholders convened at the offices of the company yesterday noon, only to adjourn until Saturday, according to an agreement which had previously been entered into between the present management and the opposition.

There was a large attendance of stockholders, and, it is understood, a very large representation of stock; but no count at all was taken, and it is impossible to say anything about the outcome of the election, although both factions expressed a great deal of confidence.

The annual reports of the officers were ready to send out to the stockholders, although they were not presented at the meeting. They are presented below in full.

The report of President Williams reads:

Colorado Springs, Colo., Dec. 31, 1901. To the Stockholders of the Isabella Gold Mining Company:

The general manager's and treasurer's reports herewith submitted, in connection with the quarterly reports heretofore sent to you, accurately portray the development of the company's ground and the financial results. The operations for the year have been extensive, but unprofitable. The marvel is that these operations did not lead to debt. The company has no debts; has about $4,000 in cash, and as long as the present management remains no debts will be incurred. The future work must proceed most economically and cautiously. Affairs have looked quite as discouraging before, but have changed for the better subsequently.

The manager's report mentions briefly some difficulties which might arise between this company and its neighbors over vein rights. In the very heart and center of the Isabella territory is a block of claims aggregating about 23 acres, belonging to the Empire State Consolidated Gold Mining company of Wyoming. This property should have been taken over by the Isabella company many years ago. Several opportunities to do this in the past have occurred. These two companies should now proceed with the development of their properties with the utmost cordiality and friendship, recognizing that neither can change the real physical conditions placed upon them by nature. The Isabella company should be careful to choose its board of directors from level-headed shareholders, who can loyally protect its rights, while recognizing the rights acquired by the other. There is no good reason why friends should waste their substance in litigation when coolness, reason and justice are at hand. Serious difficulties already exist, others are bound to occur, and yet none will prove obdurate to a proper application of a little common sense. Also, each company can assist the other. For instance, the Isabella company is now developing its northern possessions from the Lee shaft, located at a great distance from the work. To put down any adequate shaft near and properly equip the same would cost the Isabella company at least $75,000. The Empire company, close at hand, has a new deep shaft immediately available, and if the two companies remain in amity, no doubt satisfactory arrangements can be made by the Isabella company whereby it can do its own work in that section very much cheaper than without the aid of the Empire company.

If Isabella stockholders at their present annual meeting desire me to remain as the executive head it must be distinctly understood, and always remembered by them, that should differences arise between the Isabella and Empire companies, due to action of the Hagerman regime, or physical facts in the mines themselves, that upon the settlement of such affairs, I shall step aside, absolutely remaining neutral when called upon to vote in directors' meetings. I cannot, in justice to my own reputation, do aught else; for be it understood, I am financially interested in both companies.

If permitted at this meeting to remain in my present position, and should a conflict arise, I shall immediately call upon at least three able stockholders, not interested in the Empire company, and promise to execute their commands, thereby giving control over such matters into hands wholly interested in behalf of your company. Respectfully, Nelson B. Williams, Pres.

MANAGER'S REPORT.

Colorado Springs, Colo., December 31, 1901.

To the Directors and Stockholders of The Isabella Gold Mining Co.

Gentlemen: In submitting the following report I wish to briefly review and touch upon certain theories, conditions and recommendations made to the board of directors from time to time.

At the first meeting held after entering the Isabella directory in January, 1898, I strongly recommended that a full investigation be made of the large and valuable ore bodies extracted from certain levels by the former management, that the responsibility, should there be any, might rest elsewhere than upon the new board. It was not considered of sufficient importance for action and the matter was allowed to drop. More recently light has been thrown upon the complications which seem to be serious, and sooner or later certain conditions will have to be investigated and some adjustment of the differences made or serious litigation will result.

Upon being appointed general manager in February, 1898, I soon became convinced that the veins being operated at that time were not true ones, but simply cross-fractures to the main mineral zone. Working upon this theory, development was pushed out into new territory on what was considered a favorable ore horizon, on fractures. The result of these operations was the discovery of the rich ore in the Cheyenne. Since it is always problematical to what depth payable ore bodies may be found outside of the main ore zones, and in cross-fractures, I recommended to the board of directors in February, 1899, that the payment of dividends be postponed until the new ore bodies had been more fully exploited and their value ascertained.

As there have been so many false reports in circulation regarding the physical condition of the mine at that time, I will illustrate the actual condition by saying that the February shipments were not closed until March 9 and that sufficient ore to pay our regular mining expense for the month of March, 1899, (the month following the declaration of the six-cent dividend, amounting to $135,000), was not taken out before the 28th of April. Notwithstanding all haste was being made in extracting ore, it took seven weeks' output to meet four weeks' mining expense.

In April, 1899, I advised the purchase of contiguous territory, but as no ore bodies were known to exist in this territory and the company already possessed a large undeveloped acreage, and did not have sufficient cash in its treasury to meet the requirements for said purchases, the directors, who were then by the city, were not unanimous in their opinion regarding my suggestions, considering that it was not best to secure more ground. I believe, however, had those recommendations been adopted that the company would now be upon a strong financial and dividend basis, as developments of the past year have unfortunately more clearly demonstrated the cross-fracture theory. As it is, the future of the property depends in my opinion upon discoveries in virgin ground, which practically means the opening of a new mine.

The Buena Vista and Cheyenne veins have dipped outside their side lines, and their extra-lateral rights must be relied upon in following them into adjacent territory. Since no pay ore is known to exist in the bottom levels this may be of little consequence.

The Cheyenne vein has been prospected 450 feet on its dip below the tenth level, where the high values disappeared, without finding any ore that would pay to work. The fracture at this point is small, irregular and difficult to follow.

On the Buena Vista to the north as depth is obtained the vein splits and becomes so small in places that it is impossible to identify or follow it on its strike. The twelfth, thirteenth and fourteenth levels have not been extended to any considerable distance in this direction, operations having been carried on in the upper levels.

At the beginning of October last, after having driven out the fourteenth level beyond where the Cheyenne shoot should have been found, and making an upraise 80 feet in what appeared to be the continuation of the rich shoot found in the ninth and tenth levels, and not one pound of pay ore discovered on this vein in this level, work was discontinued. In the meantime, development had been going on at the most favored points in the east vein. A winze was started where high assays were obtained, and sinking continued until values entirely disappeared in the bottom. Several raises and drifts on cross veins were run where indications of ore were found, but in every instance nothing of importance was discovered, and but a few tons of low grade ore were ever taken from the fourteenth level. The expense of operating was very heavy, owing to the water, which amounted to more than 1,100 gallons per minute before the last lift and station were completed. The water gradually decreased after a few months' pumping.

A thorough and complete examination was made by a most competent mining engineer in behalf of the largest individual stockholder, and immediately after the pumps were withdrawn from the fourteenth level, and this level allowed to fill with water.

In view of the fact that developments in the lower levels were proving so unsatisfactory for so long a time and that it required so much dead work in order to maintain an output, prospecting had been vigorously prosecuted in entirely new ground. Several veins have been found which look well. One of them at a depth of 850 feet from the surface is producing some ore which averages from $35 to $50 per ton. The quantity is small so far, though samples of extraordinary richness occur and better results are hoped for. The stope is 30 feet long, but appears to be lengthening as we work upwards. A winze is being sunk following the ore and is now 40 feet below the level. The ore streak is from eight to 24 inches thick and carries about the same values as in the stope.

Some ore has been found in one of the other veins, but the streak is very small.

At the beginning of the year the outlook in the third level south was most promising, the vein being large and well mineralized and having every appearance of permanency. A short distance above the level the vein faulted, and while the vein has been recovered it is small and the ore low grade. The ore below the third level was better, but it only extended 40 feet down.

Considerable prospecting was done in the fifth and seventh levels to locate the continuation of this ore, without success, the vein remaining small and the ore low in value.

There is some ground not yet stoped between the ninth and seventh, the seventh and fifth and the fifth and third levels on the Cheyenne vein, the eighth and sixth and fourth levels have not been driven out to the south as far as those stopes. There is also ore on the east vein from the third level upwards. So far as known, it is low grade, and would return but small profit in extracting on company account. A greater revenue would be derived by leasing it in blocks to desirable lessees.

Seven thousand seven hundred and seventy-two tons of ore have been shipped during the year, having a gross assay value of $3[illegible].29 per ton and a net value of $21.10 per ton after deducting treatment and transportation charges. Six thousand six hundred and twelve feet of development has been accomplished on company account and 614 feet by lessees, a total of 7,226 feet. Respectfully, George D. Kilborn, General Manager.

TREASURER'S REPORT.

Balance Sheet, December 31, 1901.

Assets.

Property—			
Capital stock issued for property	$2,250,000.00		
Property purchased for cash, cost of patents and perfecting titles, to December 31, 1900		71,102.71	$2,321,102.71
Improvements—			
For permanent improvements and equipment of mine previous to 1895, all subsequent charged off to cost of mining			20,407.22
Cash—			
Cash on hand in banks			47,204.34
Total			$2,388,894.27

Liabilities.

Capital Stock—			
2,250,000 shares at par value, $1.00			$2,250,000.00
Unclaimed dividends			445.50
Discharges—			
Discharge checks not presented			3.05
Profit and Loss—			
Ore mining expenses, including machinery and improvements	$20,424.38		
Treatment charges	50,02[illegible].38		
Transportation charges	13,088.03		
Sampling charges	6,199.36		
Payments to lessees after deducting company's royalty	4,712.14	$94,4[illegible]5.35	
Gross receipts from sale of product		243,235.31	
Net loss at mine for year 1901		$ 61,[illegible]10.34	
Deduct—			
Interests on deposits		1,892.15	
		$ 59,2[illegible]8.19	
Add—			
Colorado Springs expenses as follows:			
Salaries	$ 3,600.00		
Office, including International Trust company	3,54[illegible].70		
Stationery and printing	852.85		
Legal	769.75		
General expense	181.75		
	$ 8,948.85		
Taxes	8,3[illegible]5.28		
*Loss on purchase price of Colorado Springs and Cripple Creek District Railway company bonds	450.00	17,744.[illegible]	
Net loss for year 1901		76,9[illegible]2.30	
Surplus December 31, 1900		$ 287,907.32	
Deduct net loss for 1901, as above		76,962.30	
		$ 190,945.02	
Less dividends paid in 1901		22,500.00	
Surplus December 31, 1901			1[illegible],445.[illegible]
Total			$2,3[illegible]

*This loss incurred in purchase of bonds to aid in building new railroad to Cripple Creek at 95 and sale of same at 91½. The interest earnings, however, on these bonds in 1901 amounted to 1,[illegible].

W. T. Davis, Treasurer.

ELKTON ENTERS EIGHTH LEVEL

The bulkhead has been removed from the eighth level crosscut in the Elkton mine and the necessary cleaning up is now in progress in the drifts, after which work will be started at once in ore. The flow of water has so far decreased that the bulkhead could be taken out with little trouble, and the station pumps in the level above are entirely able to take care of all the water which comes into the mine.

The management is planning to prosecute very thorough development work in this level without any delay. At the time the large body of water was encountered in the seventh level some rich ore bodies had been opened in the eighth level and the outlook was very flattering. The drifts in the two veins which have been opened at that depth will be pushed ahead, and the ore worked out as rapidly as possible.

It is said that the production of the mine can be materially increased by the opening of the large ore body in the seventh level south. A crosscut is now being run from the end of the drift to catch the east wall of the vein. It has been proved up for 30 feet, and the wall is still to be cut. The ore is averaging about $40 in gold to the ton. An ore body like this, which averages evenly and which is extremely wide is one of the most valuable deposits which can be opened in a mine. They have made the Portland mine what it is. Another interesting fact about the development of this ore body in the Elkton property is that the ore closely resembles the Portland rock, as Mr. Whitney stated several days ago.

Additional pumps and boilers have been ordered, and inside of three months it is expected that the mine will be equipped with all the additional machinery so that the shaft can be pushed on down to the 1,000-foot point.

MINING NOTES ROUND TOWN

The Denver paper which stated Monday morning that there was a block of 20,000 shares of Gold Coin for sale at $1.50 per share, came out yesterday morning and said they meant $2.50 per share, which is supposed to stand for a correction and an apology for the injustice done to the mine. As a matter of fact the $2.50 is only a little less ridiculous than the $1.50, and the paper has another chance coming to make itself even. There are orders on file now, it is learned, with certain brokerage firms for blocks of Gold Coin around $3 per share, which have little hope of ever being filled.

PRODUCTION NOW FROM WILD HORSE IS THE HEAVIEST.

The output from the Wild Horse, owned by the Consolidated Mines company, this month will be the heaviest in that bonanza property's history. Up to date the average has been about 125 tons and the ore will average better than $150 a ton. The showing in the 720-foot or bottom level is immense. The controlling interest in the stock is held by the Woods Investment company.

The Economic reduction plant in Requa gulch is crowded with ore. The mill is treating about 200 tons a day. All of the ore comes from the different properties controlled and owned by the Woods investment company.

HAWKINS OBTAINS LEASE ON MOBILE PROPERTY.

J. T. Hawkins, a well-known mining man who has taken an 18-months lease on the Last Chance of the Mobile company, has commenced work and will crosscut from the old workings at a depth of 300 feet to prospect for the rich vein opened on the Colorado Boss, adjoining. The lease calls for 100 feet of additional sinking, the retimbering of the shaft, and the working of 100 shifts a month. The royalty exacted is 20 per cent. flat.

Altman & Smith, who have secured a sub-lease on the Elizabeth Cooper on Raven hill, commenced work this morning. They are reported to have good ore to start on. The claim is owned by the Doctor-Jack Pot Consolidated company and is leased to J. E. Smith.

RETURNS AND SHIPMENTS FROM VARIOUS PROPERTIES.

Returns from a carload shipment from the Parkison lease on the Triumph on Battle mountain were received yesterday and gave results of $130 a ton. This rich ore is coming from the 210-foot level, and another shipment from these workings is now being prepared. The property adjoins the Ajax group and it was reported some weeks ago that the directors of the Ajax company were negotiating for its purchase. The claim is a small one, but has produced ore to the value of about $200,000. The lessees operating the claim are shipping high grade ore from the different blocks operated by them.

The Monarch Mining and Development company sent out a shipment of 40 tons yesterday from its lease on the Burns, owned by the Acacia company. The ore came from the 800-foot level and was of medium grade. Assays would indicate a value of about $40 a ton.

Jackson and associates, leasing on the north end of the Jerry Johnson, are now in shape to make steady shipments. This ground is not in conflict with the Damon. The ore body in the drift run south at the 300-foot level is about three feet in width. Assays would indicate a value of about $30 a ton. The Damon company is also shipping about 12 tons a day from the main workings.

The leasing company, operating on the Mountain Beauty, commenced shipping last week and from now on will make a regular weekly production. The first consignment of 40 tons now at the sampler is estimated to return values between $40 and $50 a ton.

WATER DRIVES MINERS FROM THE ZOE.

Water has driven the miners from the lower level of the Zoe, where a rich shoot was exposed, and work is now confined to the upper levels. For some time the lessees have been able to keep the flow under control by constant bailing, but the flow has increased. It is believed that when sinking is resumed on the Isabella, the water will abate sufficiently to permit the working of the lower levels, but it will be some time before the Zoe can hope to reap any benefit from this measure. A compressor for the Gold Dollar main workings on the Mabel M. has been hauled to the property and is now being installed. Sinking will be resumed as soon as the machinery is in running order.

INDEPENDENCE CONS. STOCK IN DEMAND.

Of late there has been considerable demand for the stock of the Independence Consolidated Mining company, [illegible] have been created [illegible] that are under way on the property by R. P. Russell, who is carrying the main shaft on the property down to the depth of 1,250 feet. These developments it is thought will encounter several ore bodies that were found in the [illegible] level which is believed to be dipping in the direction of the lower workings. The stock control is stated on good authority to be in the hands of Eben Smith and associates.

RICH VEIN IN MAY BE RECOVERED IN GOLDEN FLEECE.

The operations in the Golden Fleece mine near Lake City will, it is now believed, recover the lost ore vein, and turn the mine into a bonanza. It is now thought the valuable ore shoot has been recovered some 200 feet below where it was [illegible] some years ago. Large ore bodies have been opened up in the tunnel and some of the assays have run as high as $3,000 per ton in gold.

The values are found in petzite ore, a combination of tellurium, gold and silver. The petzite contains about 40 per cent. silver, 16 per cent. gold and the rest tellurium. Samples have been exhibited at the office of Rumsey C. Bogy of Denver. A plant will be erected at the mouth of the long tunnel, to have a capacity of 150 tons per day. This month two shipments have been made of one carload each. The first ran $4,000 and the second $4,000. A third car will be sent out before the end of the month containing still higher grade stuff, and it will probably run $25,000. Besides, this the company is getting $20,000 per month from lessees. In 1898 the Golden Fleece stock sold as high as $1.70, but recently has been down around 30 cents. Within three weeks it has jumped to 84½ cents. The workings of the Golden Fleece include four tunnels, three of them, 100 feet apart toward the summit of the hill. There is a shaft from a point about 1,200 feet above the lake level, and it is down about 700 feet. It is cut by the three upper tunnels and four additional levels under ground. An upraise is being driven from the lower or greater tunnel to meet the old workings. It has been driven 250 feet up and the rest remains to complete the connection.

THE COLORADO SPRINGS MINING STOCK EXCHANGE

Colorado Springs, Jan. 21.—The mining stock market today was in a somewhat peculiar condition, although it cannot be said that the weakness was in any way strange. The activity which was such a good sign yesterday was less apparent today and prices were also inclined to slough off to some extent, despite what appeared, in spots, to be a very brisk demand. The trading in the lower priced shares fell off very conspicuously, and the order of the day among these stocks was still fractional weakness. In the mines list Acacia sold at 11½ and Butterfly was active at 17. Elkton opened at $1.26 and under an excellent demand sold up to $1.30, but fell off to $1.27⅞ at the close, while El Paso showed nothing but weakness, selling down from 54 to 52, probably due to "collateral." Findley was lower at 11½ and Gold Dollar sold at 7½. Gold Dollar Consolidated, however, was somewhat stronger at 22, while Portland was stationary at $2.40. Sunset-Eclipse was in demand at 11½, but outside of that stock there were no features in either preferred or common lists.

EASTERN MARKETS

New York Stock Market.

By Associated Press.

New York, Jan. 21.—Today's stock market had the same appearance of indigestion and somnolence which has pervaded it of late. The movement of prices was exceedingly sluggish and narrow and the volume of dealings fell away further. The net changes were small and mixed.

To understand the character of the market comparison with previous conditions will be helpful. This time last year was a period of constantly developing projects for combinations and centralization of control on a scale never before witnessed. There was a progressive advance from month to month in the volume of the trade balance in favor of this country. This and the operation of the currency and refunding law were rapidly expanding the country's circulation and providing the requisite financial facilities for the vast loan expansion in connection with the great projects in hand. At present the stock market misses these stimulating influences. While there is nothing positively unfavorable in the outlook, there is a surfeited feeling from the undigested mass of last year's great projects. The country's foreign trade balance, although still in our favor, shows progressive decline from month to month compared with the corresponding months of last year. The national banks, instead of putting out additional note issues, are retiring their circulation up to the monthly limit allowed by the law and applications are already on file for withdrawal of circulation sufficient to exhaust the legal limit into March. Talk of new combinations is heard, but only with skepticism and distrust. There is a latent fear that such combinations may be for hostile purposes rather than for mutual benefit. Rumors have circulation for a few days that all the great banks and trust companies in New York and even insurance companies are crystalizing into two groups along the lines of cleavage that developed the financial battle of last May. It is such general considerations as these that must be looked to to gain light on the present market. There was a note of strength in Sugar and Metropolitan, but the gains were subsequently wiped out. Glucose continued its recent advance to the amount of a point, but afterwards fell ⅞ below last night. There was an active demand for Mexican Central at an advance of 1⅞ accompanied by reports of a new bond issue and the acquisition of additional lines. National Salt, after a long period of inactivity was offered down over 11 points below the last sale and then rallied five. The preferred lost four. No explanation was offered beyond the obstruction to the plan of re-organization. American Tobacco was stricken from the stock exchange list, owing to the insignificant amount of the stock outstanding and the facility thus offered for manipulation and the possible working of a corner.

Bonds are ..., ... on New York Stock Exchange ... Chicago Grain and Provisions. Wm. ... Otis & Co., 12 East Pike's Peak avenue.

New York Money.

By Associated Press.

New York, Jan. 21.—Money on call, steady at 3@3½; closing bid and ask 3@3½. Prime mercantile paper 4½@5¼%. Sterling exchange steady with actual business in bankers bills at $4.87 for demand and at $4.84½@4.84⅝ for 60 days. Posted rates $4.85@4.88½. Commercial bills ... Bar silver 55⅝. Mexican dollars 44¼. Government bonds strong; state bonds inactive; railroad bonds irregular.

Chicago Grain and Provisions.

By Associated Press.

Chicago, Jan. 21.—All grains rallied from yesterday's depression today. Early markets were inclined to carry over the wet weather weakness but covering saved the day for prices and May wheat closed ⅛c higher, May corn ⅛c up and May oats ⅛@⅜c higher. Provisions lost 5 to 12½c.

The leading futures ranged as follows:

	Open.	High.	Low.	Close.
Wheat, No. 2—				
Jan	....	....	....	77⅛
May	78⅞	79⅝	78½	79⅛
July	78⅝	79⅜	78⅝	79⅛
Corn, No. 2—				
Jan	....	....	....	61
May	63⅝	63⅞	63½	64⅛
July	63¼	64⅛	63⅝	64⅛
Oats, No. 2—				
May	45⅝	46⅛	45⅜	46⅛
July	40	40⅞	39¾	40⅜
Sept	33⅞	33⅞	33¼	33⅝
Mess Pork, bbl—				
Jan	16.42½	16.45	16.42½	16.45
May	16.80	16.92½	16.77½	16.82½
July	16.90	16.90	16.80	16.80
Lard, 100 lbs—				
Jan	9.42½	....	....	9.42½
May	9.60	9.65	9.57½	9.60
July	9.65	9.72½	9.65	9.70
Short Ribs, 100 lbs—				
Jan	....	....	....	8.37½
May	8.57½	8.62½	8.57½	8.62½

Cash quotations were as follows: Flour—Barely steady.

No. 3 spring wheat, 73½@77½c; No. 2 red, 84½c; No. 2 oats, 46c; No. 2 white, 47½c; No. 3 white, 46½@47½c; No. 2 rye, 61¾c; fair to choice malting barley, 60@63½c; No. 1 flax seed, $1.66; No. 1 northwestern, $1.69@1.70; prime timothy seed, $6.45@6.55; mess pork, per bbl, $15.50@16.25; lard, per 100 lbs, $9.50@9.42½; short ribs, sides (loose), $8.20@8.35; short clear sides (boxed), $8.75@8.87; whisky, basis of high wines, $1.32; clover, contract grade, $9.70@9.75.

THE POINTER OPPOSITION

Will Be Well Represented at Meeting to Consider Consolidation—Gold Dollar is Resuming its Old Rate of Shipments.

Special to the Gazette.

Cripple Creek, Jan. 21.—At the meeting to be held at Colorado Springs tomorrow at which the consolidation of the Mint, Molly Dwyre, Union Belle and Pointer companies are to be again considered, the opposition stockholders of the Pointer company will be well represented. A heavy shareholder tonight stated that they control 600,000 shares of stock, which is the majority holdings, provided the entire treasury stock reserve of the company has not been released. At any event, it is thought that the opposition will control the situation. Those behind the movement have not yielded an inch to the Foley-Mattocks contingent, and it will be hard to avert trouble at tomorrow's meeting. The Pointer opposition claim to have all of the ore in the Pointer company, and states that a more desirable lease on the Pointer could be obtained by them than the one given by the Pointer to R. P. Russel & Co. Mr. Russell states that he has a big proposition in the Pointer, and he is already saving what seems to be ore of an excellent smelting grade. It is understood tonight that the control of the Pointer company is held entirely in the Cripple Creek district. It will be remembered that the Mint consolidation was to have come up last week, but the matter was put over until this week until the Pointer people could reconsider their action.

The Gold Dollar Consolidated company is rapidly getting down to the old rate of shipments that was maintained before the Gold Dollar and Mabel M. companies were consolidated. The connection between the Gold Dollar tunnel workings and the main Mabel M. shaft has been entirely completed, and the consolidated company is hoisting from 600 to 700 tons of ore a month. The grade of the metal is running better than ever before in the history of the property, and the management is working on considerable high grade stuff which yields from $50 to $60 per ton. At the time of the consolidation the Gold Dollar and the Mabel M. were each producing at the rate of about 300 tons per month, the ore averaging close to $20.

At the meeting of the Mint company in Colorado Springs tomorrow the time for starting up the company's mine on Bull hill will probably be definitely decided. The workings have been closed down for some little time, pending the result of the consolidation, and although the company made arrangements to resume operations a week ago, this was not done.

W. E. Jackson, leasing the Triumph on Battle mountain, is putting down a winze from the 310-foot level on a good ore body. The depth of the winze is 35 feet and nearly the whole bottom of it is in ore, with the wall still to be encountered. The vein is going down vertically and returns received on a carload shipment yesterday show values of better than five ounces to the ton. A sub-lessee working in the 160-foot level has encountered a two-foot body of low grade ore. Oedyke & Co. on the middle block of the Triumph are pushing extensive development work.

Incomparable scenery over Colorado's best railroad—THE SHORT LINE. Low rates—50 cents one way, 80 cents round trip, limit five days from date of sale.

Something new on want ad page.

ONE-HALF MILE OIL TERRITORY

.. PROVEN UP BY ..

THE BOULDER OIL CO.

INCORPORATED UNDER THE LAWS OF WYOMING

Capitalization . . . . . 1,500,000 Shares

In Treasury . . . . . . 240,000 Shares

Owns 420 Acres of Oil Land in Boulder County Known as the McKenzie Ranch. Our SECOND WELL came in Friday at a depth of 2530 feet. At this time we have over 500 feet of oil in this well and we are in oil sand over 100 feet.

We Can Contract Our Oil at $2.50 per bbl. 3 of the best oil men claim we have a producer of over 100 bbls. every 24 hours. A Pumping Plant and a 500 bbl. Tank are ordered; also another plant of machinery for Well No. 3. The company has parties under contract to begin putting down 6 additional wells on our large territory within 60 days. Our Company was the first in the field and the first to get oil. The Directors believe we will have a dividend paper inside of one year.

Please Note that there are but 40,000 Shares of this stock for sale and it is an unusual opportunity for Colorado Springs people to purchase good stock at right prices—If other companies with only 40 acres of ground without oil and only prospects are selling stock at 20 cents and upwards, what is our stock worth?—a word to the wise is sufficient.

THE BOULDER OIL COMPANY ..

OFFICERS AND DIRECTORS: THOS. E. POOLE, President, Denver.

RAILROAD MEN HERE—A party of Missouri Pacific freight and passenger agents are stopping in this city on their way to Salt Lake City. The visitors are H. D. Wilson of Memphis, T. E. Rehander of Chattanooga, and Ellis Farnsworth of Memphis.

WARRANTY DEEDS—Among the warranty deeds recorded yesterday were the following: M. Slaughter to Charles E. Bonday, $8,500, part of lots 17 and 18, block 37, North End addition. Daniel D. Kearns to Lucie Kearns, $1,000, part of lot 1, block F, Wood Avenue addition.

KIT CARSON CIRCLE—All members of Kit Carson Circle No. 9 are requested to be in G. A. R. hall Friday afternoon at 2 o'clock sharp to attend a called meeting. Business of importance is to be transacted. In connection with the meeting a "ten-cent tea" from 3 o'clock to 5 will be held. All comrades and their friends and the public are invited. Amanda Olmstead, president.

BISHOP OLMSTEAD COMING—Right Rev. C. S. Olmstead, who was recently chosen bishop coadjutor of the Episcopal diocese of Colorado, will visit Colorado Springs in about 30 days. He will be the guest of Rev. Benjamin Brewster, rector of Grace church. Bishop Olmstead comes to Colorado from Bala, Pa., a suburb of Philadelphia. There is much interest among local Episcopalians regarding his visit to this city.

How to Prevent Pneumonia.

It is a well established fact that pneumonia can be prevented. This disease always results from a cold or from an attack of influenza. Among the tens of thousands who have used Chamberlain's Cough Remedy for these diseases, you will not find a single case that has ever resulted in pneumonia, which shows conclusively that it is a certain preventive of that dread disease. The fact is it counteracts any tendency of a cold or attack of the grip towards pneumonia. It is famous for its quick cures of colds and grip. Try it. All druggists sell it.

Office 12 Pike's Peak Avenue.

Incomparable scenery over Colorado's best railroad—the Short Line. Low rates—50 cents one way, 80 cents round trip, limit five days.

Taste, Flavor, Quality
Are all found in the well-known GORDON & DILWORTH
Mince Meat
It is better than other mince meat because it excels in these three chief points. A trial pint, quart or half-gallon jar will convince you of its full claims of superiority.

For Sale In Beautiful Tyler Place.
A new home of exquisite style and taste; finest location in Colorado Springs, being 163 feet higher than Pike's Peak ave. Italian Renaissance architecture with a mountain view unsurpassed in the state. Largely decorated, to sell with or without handsome St. Louis furniture, mostly new and fine. All of which we will sell at 50 cents on the dollar with the house. I must leave this altitude for one or two years. A grand opportunity awaits some one as the property is absolutely for sale at much less than it is worth.
Apply to Captain Tyler, 2321 North Tejon street, or to any first class real estate firm.
A 250 two new stone front, 7-room houses. Royal in points of design, style and finish; will sell for less than the houses are worth; say nothing about the lots, as I must leave this city for a time at least. Apply to Captain Tyler, 2321 North Tejon street, or to any first class real estate firm.
